## **Hazardous Waste**

This service is also available upon request on service day. A fee does apply. Please call (888) 336.6100 to schedule.

Please do not place hazardous materials or electronic (E-Waste) into your trash. Most paints, paint thinners, cleaners with acid or lye, pesticides or herbicides, brake fluids, anti-freeze, motor oil, oil filters and other petroleum derivatives and solvents, expired pharmaceuticals, home-generated sharps, household batteries and car batteries, pool chemicals, and fluorescent light bulbs are considered hazardous waste and petroleum derivatives such as motor oil and solvents are considered hazardous waste. Most televisions, cell phones, computer monitors, keyboards, printers, etc. are considered E-Waste.

State and Federal laws require special handling for these wastes and for proper disposal. Take the listed items to any of the FREE Hazardous Waste Roundup

For more info visit the County of Los Angeles Department Public Works website at [www.cleanla.com](http://www.cleanla.com) or call their **(888) Clean-LA hotline**.

## **Container Information**

Containers must be provided by residents. Capacity must be between 32-35 gallons. The contents of your containers are processed through the Material Recovery Facility where all viable recyclable materials, such as paper, plastics, glass, wood, metals, and others are sorted, baled, and transported to recycling facilities. This process is necessary in order to meet the strict State mandate of AB939 which requires that 50% of the City's waste stream be diverted from landfills.
