Wireless Industry Now Seeks to Limit Local Control at Federal Level

The wireless industry is currently circulating a draft bill through the Senate Commerce Committee that would negatively impact the City and its residents.

Similar to SB 649, which was recently vetoed by Governor Brown, the draft bill seeks to limit local control of publically owned infrastructure, among other harmful elements contained within.

On November 29th the City sent a letter of opposition to U.S. Senators’ Feinstein and Harris urging that they oppose a draft bill.

Business Applications Now Online

Post Date: 12/20/2017

At its December 11, 2017 Council Meeting, City Council approved an agreement with HdL Software, LLC to provide the City with business license processing services.

This improved process for submitting and renewing business license applications will allow electronic submission, processing and payment to be completed online.

In past years, the City has conducted its business license application processing manually at City Hall or through the mail. This has increased processing times for applications and payments and, in certain instances, required business operators to be present to apply for, renew, or pay for licenses.

Businesses will now receive electronic copies of their license from HdL Software LLC for easy and convenient mobile access. In addition, respective applicants will also receive a Business License Vehicle Tag from HdL.

For those businesses currently operating within the City, renewal notices have been sent out. Please note that payments are due by January 1, 2018 and will be considered delinquent if received on or after February 1, 2018.

To apply, renew or pay for a business license, please visit: https://palosverdesestates.hdlgov.com/

Any questions regarding licensing can be directed to the Business Support Center by calling (310) 341-2571 or through e-mail at Support@hdlgov.com

Following the failure of Measure D in March 2017, the City Council adopted multiple strategies to address the $5 million budget shortfall (25% of the City’s operating budget). The strategies included:

1) Reducing the general citywide budget.
   The 2017-18 fiscal year budget included one-time and temporary reductions of $1,271,733, fund transfers of $1,529,246, and use of fiscal reserves in the amount of $1,471,078.

2) Completing an independent, neutral expert evaluation of the costs, operations, value, benefits and efficiencies associated with having a locally controlled Police Department.
   The study was completed in September 2017 and, in addition to the previous budget reductions, the City Council approved an additional $580,000 in Police Department reductions.

3) Completing a “User Fee Analysis” to identify opportunities for full cost recovery of planning, building and construction services that are provided by the City.
   A public hearing to adjust fees is scheduled on January 10, 2018 at 7:30 p.m. in the City Council Chambers.

4) Conducting community meetings to improve communications and engage residents.
   Four community conversations were held in October 2017 in partnership with the Davenport Institute of Pepperdine University. The City is implementing transparency technology and pursuing additional measures to strengthen its community relations.

5) Establishing a Finance Advisory Committee to provide the City Council with recommendations for maintaining the City’s fiscal health and viability.
   Applications for the Committee are currently being accepted. They are available by calling (310) 378-0383 or at www.pvestates.org.

6) Conducting an evaluation of the non-safety operations of the City through an independent, neutral expert to evaluate costs, efficiencies and service levels.
   The study is scheduled for presentation to the City Council on January 23, 2018.

7) Presenting to voters a new ballot measure to maintain the City’s current services, and in particular retaining its own local and community based police department.
   At its meeting on January 10, 2018, the City Council will consider calling for an election on April 10, 2018.

Proposed Ballot Measure to Pay for Police Services in April 2018

At the October 10 and December 11, 2017 meetings of the City Council and concurrent with receiving broad community input through letters, phone calls, emails, and numerous community meetings, the City Council has discussed a potential ballot measure to address the City’s current fiscal situation stemming from the loss of 25% of revenue. On January 10, 2018, the City Council will consider calling for an election on April 10, 2018 for a 9-year parcel tax with a simplified formula that will generate approximately $5 million that can only be used to pay for the Palos Verdes Estates Police Department. The City Council meetings and presentation slides can be found by visiting the City’s website at www.pvestates.org under “Meetings & Agendas.”

For more information, please visit the City’s website at www.pvestates.org or call (310) 378-0383.
Establishment of a Finance Advisory Committee

The City Council is establishing a Finance Advisory Committee comprised of five residents with a financial background. Members of the Finance Advisory Committee will serve two-year terms and meet four times a year for the purpose of:

- Providing input and recommendations to the City Council regarding budget reconciliation, including actual revenues and expenses at the Departmental level;
- Consulting and working with City staff in the preparation of long-range financial planning forecasts; and
- Advising and assisting the City Council on fiscal liability matters facing the City and other fiscal matters referred to the Finance Advisory Committee.

Applications from residents who are interested in serving on the Finance Advisory Committee are being received through January 19, 2018 at 4:00 p.m. Applications are available on the City's website at www.pvestates.org or by calling the City Clerk's Office at (310) 378-0383.

Police Department Reductions

Following the Police Operations Study conducted by Lewis-McCravy Partners and a thorough analysis of the study's recommendations, the following reductions will be made in the Police Department:

- Elimination of two Service Officer positions that support Dispatch and Jail functions.
- Elimination of one Sergeant position assigned to training and personnel functions.
- Elimination of one Patrol Officer position and the canine unit.
- Reduction in employer's share of pension contributions.

Fountains and Lights - Community Partnerships

The City of Palos Verdes Estates thanks you, our residents and businesses, for your generosity and continuing support for maintaining the special character and quality-of-life of our community.

During this holiday season, and in particular while the City conscientiously works to fund traditional programs and services in innovative and alternate ways, we appreciate the donations that have provided for lighting Lunada Bay Plaza and Malaga Cove Plaza holiday trees. With additional donations being received, Neptune fountain and Lunada Bay fountain will also soon be operational.

We are also very appreciative and thankful for the many volunteers who dedicate themselves to the City. To those on Committees and to those serving the City in other capacities, thank you.
