INTRODUCTORY SECTION

THIS PAGE INTENTIONALLY LEFT BLANK

July 8, 2024

Honorable Mayor and Members of the City Council:

We are pleased to submit the Annual Comprehensive Financial Report (ACFR) of the City of Palos Verdes Estates (City) for the fiscal year ended June 30, 2023. This report was prepared in accordance with all the appropriate rules and guidelines and independently audited by Vasquez and Company LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the City's financial statements are free of material misstatement. The independent auditor concluded that there was a reasonable basis for rendering an unmodified opinion for this fiscal year. The independent auditor's report is presented as the first component of the financial section of the ACFR.

The ACFR contains management's representations concerning the City's finances, is free of material misstatement, and management assumes full responsibility for the completeness and reliability of all the information presented. To provide a reasonable basis for making these representations, the City's management has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for this report. As the cost of internal controls should not exceed the benefits derived from those controls, the City's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements are free from material misstatement.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative overview and analysis of the basic financial statements. The MD&A was designed to complement this letter of transmittal and should be read in conjunction with it. Financial data for all funds of the City are included within the ACFR.

Profile of the Government

The City of Palos Verdes Estates is a planned community that is comprised primarily of residential properties, and large areas of permanent open space, with panoramic views overlooking the Pacific Ocean and Los Angeles metropolitan area. The City was incorporated in 1939 and is the oldest of the four cities on the Palos Verdes Peninsula. The City's population of approximately 13,500 resides within an area of 4.75 square miles. As a residential community with almost no commercial tax base, the City has depended significantly on revenues derived from two primary sources, general property taxes, and a special parcel tax, to provide services to residents and the public.

The City operates under the Council-Manager form of government. Policy-making and legislative authority are vested in the five-member City Council. City Council members are elected on a non-partisan basis and serve four-year, staggered terms, and receive no compensation. One member is selected by the City Council as Mayor who serves a one-year term. The City Council is responsible for a variety of functions including adopting ordinances, establishing policies, allocating resources, appointing Commission and Committee members, and hiring both the City Manager and City Attorney. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the City, and for all hiring decisions. Voters also elect, every four years, a City Treasurer who is responsible for the City's investment and banking decisions.

City employees provide various public services including: public safety; planning and building; public works, maintenance of City buildings, parkways, medians and streets; and general administrative services. The City contracts with the Los Angeles County Fire Department for fire suppression and paramedic services. The City also contracts with private firms for professional engineering and capital project management; building plan check, permitting and inspection; business license tax management and collection, information technology services; refuse collection; and grounds maintenance. The City has concession agreements for the operation and use of City property that collectively provide recreational venues consisting of a golf course, tennis club, swimming venue and stables for residents and the public.

Financial Policies

Budget Policy - The City Manager presents a proposed budget to the City Council for adoption annually on or before June 30. The Adopted Budget serves as the blueprint for the allocation of resources for the delivery of services. The budget is controlled at the Fund level, and the City Manager is authorized to make transfers between Departments within City Council approved limits. The budget also presents fiscal information at the Department level. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget was adopted.

Fund Balance Policy - The City Council has adopted a Fund Balance Policy which includes a committed General Fund balance of \$8.0 million for emergency contingencies. The reserve may be used in the event of either a declared federal, state or local emergency or if the City suffers a loss of General Fund revenue in the amount of \$500,000 or more, either through state actions or a local condition affecting a major revenue source.

Investment Policy - The elected City Treasurer is responsible for the custody and investment of surplus City funds. The Treasurer's activities are guided by the City's adopted Investment Policy that defines the objectives and priorities of the investment program. Consistent with the applicable provisions of the California Government Code, the City's Investment Policy prioritizes safety and then liquidity of funds over investment returns.

One-time Revenues and General Fund Surplus Policy -The City has adopted a One-time Revenues and General Fund Surplus Policy that provides prudent and deliberate guidance for the application and/or use of these resources. The Policy provides a consistent focus on priorities needing long-term resolution while reducing or eliminating the allocation of funding for non-strategic investments.

Factors Affecting Financial Condition

The information presented in the financial statements may be best understood when it is considered from the perspective of the specific environment within which the City operates.

Local Economy. The City of Palos Verdes Estates is overwhelmingly residential; predominately comprised of single family homes. The City is nearly fully developed with few vacant parcels. Commercial activity in the City is primarily real estate firms with other business that support real estate activity, including mortgage and title companies, or provide local services. Property tax is the primary component of the City's revenue stream. In this respect, although the City is not diversified in its mix of revenue sources, the City is also not subject to widespread, consumer-driven, economic fluctuations - except to the extent that the real estate market is affected by property sales and valuations. Within the City's two small commercial areas at Malaga Cove and Lunada Bay Plazas, there are small, locally owned retail shops, restaurants and food markets.

From a regional perspective, the City of Palos Verdes Estates is part of the larger South Bay region of Los Angeles County, consisting of 16 incorporated cities and 20 communities. The South Bay is home to many aerospace and defense-related industries including the Los Angeles Air Force Base, as well as manufacturing, software development, entertainment, and travel and tourism focused firms. Located near Los Angeles International Airport and the ports of Los Angeles and Long Beach, the South Bay is an essential component of the Los Angeles County economy.

Palos Verdes Estates Law Enforcement Parcel Tax (Parcel tax). In recent years, made possible by the voter approved temporary Parcel Tax, the City has been able to record a series of annual General Fund budgetary surpluses. The revenues generated since 2018 from the parcel tax have fulfilled their intended purpose of funding the majority of Police Services with annual revenues of approximately \$5.1 million. Since the approval of Parcel Tax, the cost of Police Services for the community has grown by \$880,466 (13.4%) to the current cost of \$7.5 million for fiscal year 2022/23.

Additionally, the above costs do not include the public safety aspects of Parklands fire risk mitigation. These three areas of public safety are key contributors to the city's unique character that residents treasure.

As the parcel tax is due to expire after Fiscal Year 2026-27, it will be necessary for the City to work with citizens to develop an acceptable replacement that sustains desired public service levels while also continuing the City's practice of disciplined financial stewardship.

Pension Debt and other Unmet Needs. Pension Debt, Infrastructure and Parklands continue to be the primary funding needs for the City. With the adoption of the One-time Revenue and General Fund Surplus policy, a limited source of funding for these needs has been identified. Like other cities, long-term planning for meeting our obligations created by Memorandums of Understanding, State mandates, pensions, insurance, etc. is paramount to the City's long-term financial health.

Throughout California, the fluctuating costs associated with the long-term funding of employee pensions obscure the understanding of each city's financial condition. After posting a 21.3 percent return for fiscal year 2020-21, CalPERS posted a loss of 6.1% for FY 2021-22; a miss of over 13% from their stated investment return goal. This investment return shortfall will result in growth of the City's pension debt. While the State's Public Employees Pension Reform Act reduces pension costs

for newer employees, it remains critical that Palos Verdes Estates continues to carefully monitor these costs and invest in strategies designed to lower its long-term post-employment expenses.

Long-term Financial Planning. Infrastructure maintenance, replacement, and upgrade are critical components of the City’s financial planning and fiscal needs. Like other cities, long-term planning is also necessary for meeting the obligations of State mandates, pension, insurance, healthcare and contract increases. As the City is dependent on voter approved revenues for assistance in balancing the budget, infrastructure enhancement, and on-going maintenance, options for future needs must be critically evaluated. Revenues must be evaluated for having the lowest impact to our residents with the greatest affect for funding expected City service levels; infrastructure maintenance, replacement and upgrade; and Parkland’ fire mitigation efforts. Refining a long-range model that clarifies the long-term infrastructure and operating needs of this City is critical to maintaining the quality of life and services that residents expect and desire.

Acknowledgments

We sincerely thank the City Council for its leadership. The City Council continues to focus on the standards of professionalism, ethics, and prudent financial planning while managing the City’s finances. We also thank the City staff for their integrity, hard work, and dedication in service to the City, its residents, businesses, and visitors.

Respectfully submitted,

Kerry Kallman
Interim City Manager

Independent Auditor's Report

The Honorable Mayor and
Members of the City Council
of the City of Palos Verdes Estates, California

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Palos Verdes Estates, California (the City), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Palos Verdes Estates, California as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 14 and the required supplementary information on pages 62 through 72 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and budgetary comparison schedules as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report July 23, 2024 on our consideration of the City of Palos Verdes Estates' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Vasquez & Company LLP

**Glendale, California
July 23, 2024**

This discussion and analysis of the City of Palos Verdes Estates' (City) financial performance provides an overview of the financial activities of the City for the fiscal year ended June 30, 2023. It is suggested that this overview be read in conjunction with the letter of transmittal (pages i-iv) and the accompanying financial statements.

Financial Highlights

- The General Fund ended the year in a higher position as compared to FY 2021-22. As of June 30, 2023, the General Fund balance was \$25.7 million, an increase of approximately \$1.0 million, or 4%.

General Fund expenditures exceeded revenues by \$3.5 million before transfers. Net transfers into the General Fund totaled \$4.5 million of which \$5.1 million was from PVE Law Enforcement Special Revenue Tax Fund. FY 2022-23 results include General Fund revenue of \$18.1 million and expenditures of \$21.7 million.

- During the year, the City's governmental revenues totaled \$25.9 million, an increase of approximately \$200,000, or 1%, from the prior year. General governmental expenditures totaled \$24.2 million for the fiscal year, an increase in expenditures of \$2.1 million, or 9.3% from the prior year. In total, governmental revenues exceeded expenditures by \$1.6 million, excluding transfers.
- The City maintained its prudent reserve posture. The City's current adopted Fund Balance Policy provides for a minimum General Fund committed fund balance of \$8.0 million for emergency contingencies. The restricted fund balance includes funds for public works in the amount of \$6.2 million and public safety in the amount of \$1.6 million. The assigned fund balance includes the exchange of Rule 20A Southern California Edison credits with the City of Rolling Hills in the amount of \$675,295. Additionally, \$7.3 million of resources identified by the City Council for Parklands and Capital Project needs were unused and assigned at fiscal year-end for future application in these areas.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements include three components: the Government-wide Financial Statements, the Fund Financial Statements, and the Notes to the Basic Financial Statements. This report also contains other supplementary information in addition to the basic financial statements, including non-major fund financial statements and a statistical section.

Basic Financial Statements

The Basic Financial Statements contain the Government-wide Financial Statements, the Fund Financial Statements and the Notes to the Basic Financial Statements. This report also includes supplementary information intended to furnish additional detail to support the Basic Financial Statements.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the City’s assets, deferred outflows of resources, liabilities and deferred inflows of resources, on a full accrual basis of accounting similar to that used by private sector companies. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

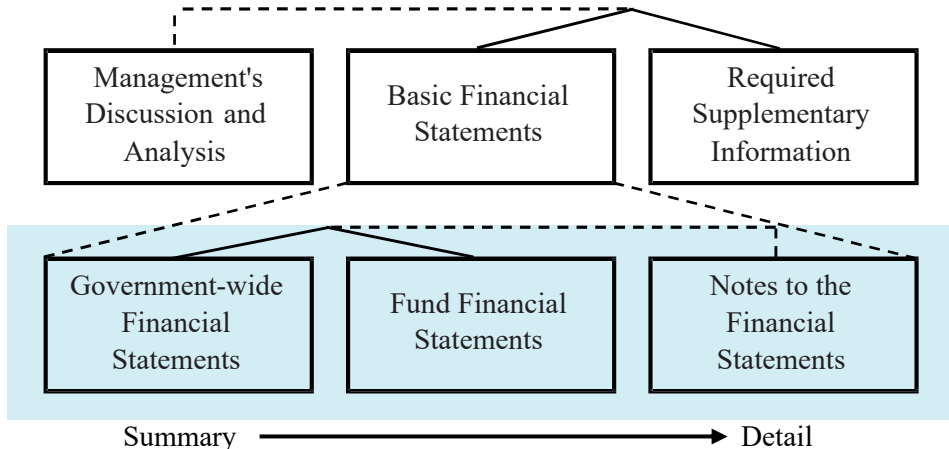

The *Statement of Activities* provides information about the City’s revenues and expenses on a full accrual basis, with an emphasis on measuring net revenues or expenses for each of the City’s programs. The Statement of Activities explains in detail the change in net position for the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The government-wide financial statements reflect functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*). **The City does not maintain or report business-type activities.** The governmental activities of the City include general government, public safety, public works, parks and recreation. Capital projects are reported as governmental activities according to the nature of the project. The government-wide financial statements can be found on pages 15-16 of this report.

Fund Financial Statements. The fund financial statements focus on current available resources and are organized and operated on the basis of funds, each of which is defined as a fiscal and accounting entity with a self-balancing set of accounts, established for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. The focus of governmental and proprietary fund financial statements is on major funds. Major funds are determined based on minimum criteria set forth by the Government Accounting Standards Board (GASB). Like other state and local governments, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Fund accounting is also used to aid financial management by segregating transactions related to certain government functions or activities.

The Notes to the Basic Financial Statements. The Notes to the Basic Financial Statements provide additional information and narrative disclosures that are essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes can be found on pages 26-61 of this report.

**REQUIRED COMPONENTS OF
THE ANNUAL FINANCIAL REPORT**

Other information. The combining statements referred to earlier in connection with non-major governmental funds are presented following the notes to the financial statements. Combining and individual fund statements and budgetary comparison schedules can be found on pages 73-96.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, comparing the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements is useful. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. The governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains individual governmental funds. Information is presented separately in the balance sheet and in the statement of revenues, expenditures and changes in fund balances for the General Fund and the PVE Law Enforcement Special and American Rescue Plan Act (ARPA) Revenue Funds and General Capital Improvements Capital Projects Fund. Data from the other governmental funds are combined into a single, aggregated presentation.

The City adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison schedule has been provided for each governmental fund to demonstrate compliance with this budget.

The basic fund financial statements can be found on pages 17-20 of this report.

Proprietary funds. The City maintains a single Internal Service Fund (ISF), one type of proprietary fund, to accumulate and allocate costs among the City's various governmental functions. The City uses its ISF to accumulate resources and to account for the costs of equipment replacement (vehicles, computer systems and furniture). Because these services benefit governmental functions, the net revenue (expenses) have been included within governmental activities in the government-wide financial statements. The basic proprietary fund financial statements can be found on pages 21-23 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on pages 24-25 of this report.

CITY OF PALOS VERDES ESTATES, CALIFORNIA
Management's Discussion and Analysis
Year Ended June 30, 2023

Financial Highlights
Government-wide / Full Accrual Basis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. As of June 30, 2023, the City's assets and deferred outflows exceeded liabilities and deferred inflows by \$52.9 million, an increase of \$3.4 million, or 6.87%, from the prior fiscal year.

Net investment in capital assets accounted for \$29.6 million, or 56% of the City's total net position. This component of net position consists of capital assets (land, structures and improvements, equipment, infrastructure, and construction-in-progress) net of accumulated depreciation, reduced by any outstanding debt attributable to the acquisition, construction, or improvement of the assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Net investment in capital assets decreased by \$1.2 million, or 3.90%, from the prior fiscal year. This decrease is mostly attributable to the recognition of \$2.7 million in depreciation.

Restricted net position amounted to \$7.8 million, representing 14.8% of total net position. This component of net position represents resources that are subject to external restrictions imposed by creditors and grantors, laws and regulations of other governments, and restrictions imposed by law through constitutional provisions or enabling legislation. This component of the City's net position increased \$334,411, or 4.45%.

The remaining unrestricted component of \$15.4 million increased \$4.3 million, or 38.36%, from the prior fiscal year.

Net Position
June 30, 2023 and 2022

	2023	2022	Change	Change
		(as restated)	(in dollars)	(in percentage)
Current and other assets	\$ 41,525,505	\$ 37,382,535	\$ 4,142,970	11.08%
Capital assets	29,734,636	30,843,521	(1,108,885)	-3.60%
Total assets	<u>71,260,141</u>	<u>68,226,056</u>	<u>3,034,085</u>	<u>4.45%</u>
Deferred outflows	<u>9,314,811</u>	<u>4,854,454</u>	<u>4,460,357</u>	<u>91.88%</u>

CITY OF PALOS VERDES ESTATES, CALIFORNIA
Management's Discussion and Analysis
Year Ended June 30, 2023

Governmental activities. During FY 2022-23, governmental activities net position increased by \$3.4 million to a total of \$52.9 million.

Total revenues for governmental activities increased \$1.9 million, or 7.85%. Program Revenues, that is revenues derived from charges for services and grants, decreased slightly by \$154 thousand, or 1.4%. General Revenues, revenues such as from taxes and investments, increased \$2.1 million, or 15.4%. This resulted from several factors, including a \$632,377 increase in tax revenues and a \$1.1 million increase in investment income.

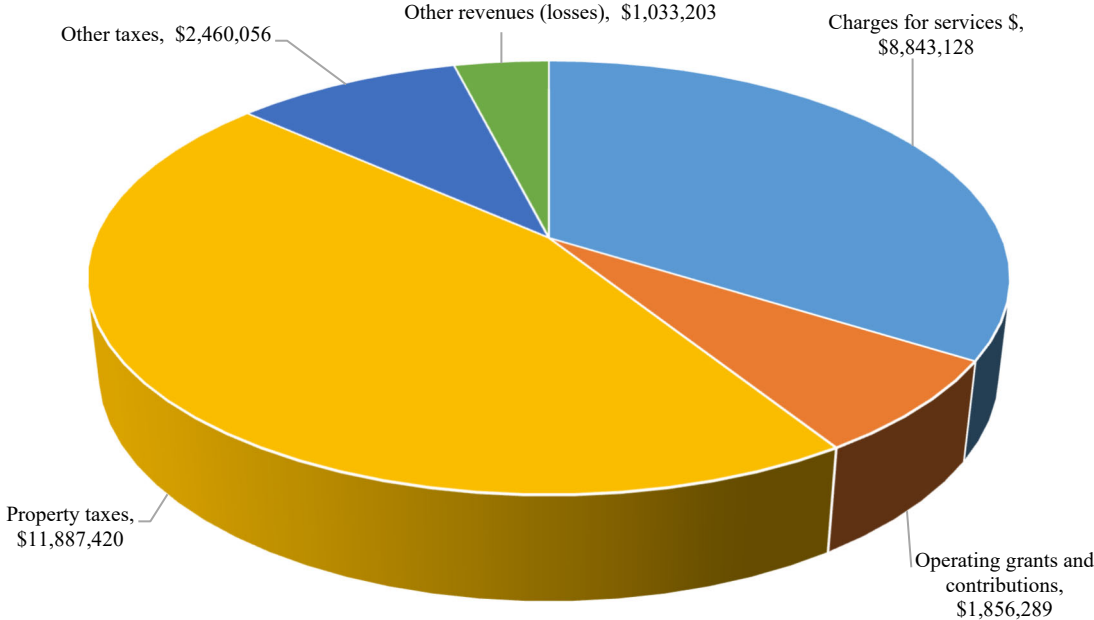

Governmental Activities expenses decreased by \$2.1 million, or 8.4%.

The following table presents condensed information from the statement of activities for the fiscal years 2023 and 2022. As previously stated, all changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Governmental Activities Revenues

Governmental Activities Expenses

Fund Financial Statements / Budgetary Basis

Governmental Funds

The City's governmental funds ending fund balances totaled \$35.0 million, which is an increase of \$1.4 million from the prior year. This increase is largely due to the year-end surplus in the General Fund, which is due to savings in a few departments, but primarily in the City Council budget for items designated to be spent on capital but were not used. See additional discussion in the General Fund Budgetary Highlights below. In addition, restricted funds received from the County of Los Angeles for transportation projects were not fully spent during the year.

At June 30, 2023, the total of all restricted fund balances for governmental funds was \$7.8 million while assigned fund balance was \$7.9 million.

Major funds

The General Fund ended the year with a fund balance of \$25.7 million, an increase of \$998 thousand or 4.0% over the prior fiscal year. This change includes the transfer of \$5.1 million from the PVE Law Enforcement Special Revenue Fund to the General Fund.

The General Fund committed fund balance is \$8.0 million, as required by City policy. The unassigned fund balance of the General Fund totaled \$9.6 million, a \$729 thousand decrease from last year's balance. The decrease is essentially the result of the Council's allocation of Unassigned Fund Balance to Assigned for Capital Projects, and not because of an overall reduction in Fund Balance. Total assets for the General Fund have increased by \$638 thousand and total liabilities have decreased by \$357 thousand.

General Fund revenues have increased by \$1.4 million, or 8.6%, from the prior year. The increase resulted primarily from the \$1.3 million increase in Use of Money and Property, which includes investment returns. As with most agencies, the City capitalized on the rapid increase in interest rates beginning in the summer of 2022, particularly on the short end of the yield curve.

The following schedule provides a year-over-year comparison for the General fund:

General Fund
Years Ended June 30, 2023 and 2022

	2023	2022	Change	Change
	2023	(as restated)	(in dollars)	(in percentage)
Revenues	\$ 18,145,274	\$ 16,702,280	\$ 1,442,994	8.64%
Expenditures	21,672,570	20,244,392	1,428,178	7.05%
Excess revenues/expenditures	(3,527,296)	(3,542,112)	14,816	-0.42%
Transfers In	5,089,296	5,263,377	(174,081)	-3.31%
Transfers Out	(564,118)	(364,725)	(199,393)	54.67%

Ending fund balance	\$ 25,689,078	\$ 24,691,196	\$ 997,882	4.04%

CITY OF PALOS VERDES ESTATES, CALIFORNIA
Management's Discussion and Analysis
Year Ended June 30, 2023

The General Capital Improvements Fund (CIF) ended the year with a fund balance of \$1.5 million, a slight increase of just over \$100,000 from the prior year. Although expenditures for various capital improvement projects increased by approximately \$600,000, these costs were almost entirely reimbursed from transfers from the General Fund and restricted funds that fund the projects. The other major governmental fund, the PVE Law Enforcement Special Revenue Fund reflects no material variation in any activity based (P&L) or point in time (BS) financial data since the underlying parcel tax is essentially fixed. The following schedule provides a year-over-year comparison for all governmental funds:

Total Governmental Funds
Years Ended June 30, 2023 and 2022

	2023	2022 (as restated)	Change (in dollars)	Change (in percentage)
Revenues	\$ 25,894,977	\$ 24,108,596	\$ 1,786,381	7.41%
Expenditures	24,243,299	22,174,207	2,069,092	9.33%
Excess revenues/expenditures	1,651,678	1,934,389	(282,711)	-14.62%
Transfers In	7,147,573	7,820,066	(672,493)	-8.60%
Transfers Out	(7,357,503)	(7,851,886)	494,383	-6.30%
Net transfers	(209,930)	(31,820)	(178,110)	559.74%
Net change in fund balance	1,441,748	1,902,569	(460,821)	-24.22%
Beginning fund balance, as restated	33,562,034	31,659,465	1,902,569	6.01%
Ending fund balance	\$ 35,003,782	\$ 33,562,034	\$ 3,344,317	9.96%

Proprietary funds. The only proprietary fund of the City is the internal service fund for equipment replacement. Total Net Position for the Equipment Replacement at year end equaled to \$1.8 million. This reflects an overall increase of \$176 thousand from prior year.

General Fund Budgetary Highlights

Revenues. The originally adopted revenue budget of \$16.9 million was not changed during the year, which is not unusual. Actual revenues totaled \$18.1 million, a favorable variance of \$1.2 million. The variance was the result of better than expected revenues in three areas: (1) Property Tax revenues ended the year \$482 thousand over the budgeted estimate, which is likely the result of a high number of sales in the prior year that resulted in a reassessment of those properties to the market value (sales price); (2) Use of Money & Property, which included investment earnings and concession revenue, was \$349 thousand higher than the \$1.8 million budget. This is the result of several factors, including the increase in interest rates, which resulted in higher returns to the City, and strong performance of the concessionaires (golf club, tennis club, and beach & athletic club); and (3) Licenses & Permits revenues ended the year \$171 thousand above budgeted estimates due to more building activity than expected. Revenue in the prior year were slightly higher than this fiscal year, so the favorable variance is driven by the reduced expectation built into the revenue budget.

Expenditures. The adopted expenditure budget of \$22.8 million increased during the fiscal year based on amendments approved by City Council to \$23.6 million. Total expenditures were well below budget by almost \$2.0 million. This variance was largely driven by underspending in the General Government and Parklands (Parks & Recreation) expenditure categories. In the General Government category, which includes the administrative departments and City Council, actual expenditures were \$1.4 million below budget. Over \$800,000 of this variance was in the City Council budget where \$800,000 was budgeted for unmet needs for Parklands and general capital projects. None of these funds were spent. An additional \$569 thousand in savings was derived in the Parklands (Parks & Recreation) operation. This was largely the result of the abandonment by a contractor for weed abatement that resulted in savings of approximately \$430,000.

CITY OF PALOS VERDES ESTATES, CALIFORNIA
Management’s Discussion and Analysis
Year Ended June 30, 2023

Other Financing Sources. This includes inter-fund transfers. The General Fund’s budget included a \$1.6 million transfer from the ARPA Fund to cover fire services. However, these funds will be used in fiscal year 2023/24, which resulted in a variance at year-end.

Capital Asset and Debt Administration

Capital Assets. The City’s investment in capital assets for its governmental activities as of June 30, 2023, totaled \$29.7 million (net of accumulated depreciation). This is a decrease of \$1.1 million compared to the prior year. This investment in capital assets includes land, buildings, improvements, machinery/equipment, vehicles, furniture, streets, sewers and storm drains. During the year, governmental fund capital additions totaled \$1.6 million, including \$1.4 million in capital construction costs, \$216 thousand in vehicle purchases, and \$21 thousand in machinery & equipment additions. The most significant change in balances has to do with annual depreciation cost incurred, which totaled \$2.7 million in fiscal year 2023.

Capital Assets (Net of Depreciation)
June 30, 2023 and 2022

Capital Assets	2023	2022	Change (in dollars)	Change (in percentage)
Land	\$ 4,487,892	\$ 4,487,892	\$ -	0.0%
Construction in progress	1,500,242	866,803	633,439	73.1%
Building and improvements	3,417,501	3,921,017	(503,516)	-12.8%
Machinery	315,879	484,417	(168,538)	-34.8%
Furniture and fixtures	9,983	14,414	(4,431)	-30.7%
Vehicles	388,898	319,758	69,140	21.6%
Infrastructure	19,614,241	20,749,220	(1,134,979)	-5.5%
Total	<u>\$ 29,734,636</u>	<u>\$ 30,843,521</u>	<u>\$ (1,108,885)</u>	<u>-3.6%</u>

Additional information on the City’s capital assets can be found in Note 3 beginning on page 42 of this report.

Long-term debt. The City has no debt instruments outstanding but does record existing liabilities in the area of vested employee benefits. At the end of the current fiscal year, the City’s net pension liability under GASB 68 was \$20.1 million consisting of \$5.3 million for the Miscellaneous Plan and \$14.8 million for the Safety Plan. The City’s total other postemployment benefit liability under GASB 75 was \$362 thousand at the end of the current fiscal year. Additional information on long-term debt can be found in Note 5, Note 7, and Note 8 of the report.

Economic Factors and Next Year’s Budget

Economic Factors

Approximately 78% of total General Fund estimated fiscal year 2023/24 revenues are derived from taxes. The largest of these is property taxes, making up 53% of the total General Fund revenue budget. Historically, property taxes in California have been a stable revenue source for local agencies. Over the last decade, due to historically low interest rates, the real estate market has been extremely strong, leading to strong growth in property taxes during this same period. Although the recent increase in interest rates has dramatically affected real estate sales and, as a result, will result in moderated growth for the next few years, property taxes will continue to be a key and strong revenue source for the City, helping to pay for the increasing costs of providing services in the community.

The City of Palos Verdes Estates also receives parcel taxes from Measure E approved by City voters in April 2018. Measure E was approved to pay for a portion of law enforcement services. Unlike property taxes, which can be expected to grow from 3-5% annually, this parcel tax is fixed, generating approximately \$5.1 million per

year. Making up 21% of total revenues, it represents a key component of the General Fund revenue portfolio. However, due to its fixed nature, it essentially will continue to fall behind in supporting law enforcement costs that have grown and will continue to grow since its approval in 2018.

Other revenues that are susceptible to fluctuation in concert with economic conditions include those tied to building and development. The City receives approximately \$1 million annually from a combination of building and planning related fees. Often times, during economic slowdowns or, in the current case, when interest rates are rising, building and development projects wane, resulting in lower revenues. Fortunately, given that these revenues make up less than 5% of total General Fund revenues, fluctuations in revenues do have materially affected the overall finances of the City.

Economic factors also need to be considered relating to expenditures. As a result of deferred maintenance, the landscaping and fire abatement costs are significantly increasing. The entire Peninsula is considered a high fire risk zone, and the community needs to comply with strategies to mitigate these risks. The Peninsula is also experiencing risks related to water and land movement concerns that need consistent monitoring and potential expense. Additionally, the city's infrastructures are aging, and significant unfunded investments will need to be made in coming years.

Requests for Information

This financial report is designed to provide a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Department of City Support Services, 340 Palos Verdes Drive West, Palos Verdes Estates, California 90274 (or via email at pvefinance@pvestates.org).

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Palos Verdes Estates, California (the City), have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) as applied to governmental agencies. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

a. Reporting Entity

The City was incorporated under the General Laws of the State of California on December 20, 1939. The City operates under a Council - City Manager form of government. The financial statements of the City include the financial activities of the City.

b. Basis of Accounting and Measurement Focus

The *financial statements* of the City are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities that rely, to a significant extent, on fees and charges for support. The City has no business-type activities. The primary government is reported separately from discretely presented component units for which the primary government is financially accountable. The City has no discretely presented component units. Certain eliminations have been made as prescribed by Governmental Accounting Standards Board (GASB) Statement No. 34 in regard to interfund activities, payables, and receivables. All internal balances in the statement of net position have been eliminated.

Government-wide financial statements are presented using the *economic resources measurement focus* and the *accrual basis of accounting*. *Measurement focus* indicates the type of resources being measured. Under the economic resources measurement focus, all (both current and long term) economic resources and obligations of the reporting government are reported in the government-wide financial statements. *Basis of accounting* refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Under the accrual basis of accounting, revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB 33.

Program revenues include charges for services and payments made by parties outside of the reporting government's citizenry if that money is restricted to a particular program. Program revenues are netted with program expenses in the statement of activities to present the net cost of each program.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

b. Basis of Accounting and Measurement Focus (Continued)

Government-wide Financial Statements (Continued)

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as an expenditure. Proceeds of long-term debt are recorded as a liability in the government-wide financial statements, rather than as other financing sources. Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

Certain eliminations have been made in regard to interfund transfers, payables and receivables. All internal balances in the statement of net position have been eliminated. Internal service fund activity has been eliminated and net balances are included in the governmental activities. Interfund services provided and used, if any, are not eliminated in the consolidation process.

Fund Financial Statements

The underlying accounting system of the City is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred inflows of resources, fund balance, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental, proprietary, and fiduciary funds are presented after the government-wide financial statements. These statements display information about major funds individually and nonmajor funds in the aggregate for governmental and proprietary funds. Fiduciary statements include financial information for fiduciary funds and similar component units. Fiduciary funds of the City primarily represent assets held by the City in a custodial capacity for other individuals or organizations.

Governmental Funds

In the fund financial statements, governmental funds are presented using the *modified-accrual basis of accounting*. Their revenues are recognized when they become *measurable* and *available* as net current assets. *Measurable* means that the amounts can be estimated, or otherwise determined. *Available* means that the amounts were collected during the reporting period or soon enough thereafter to be available to finance the expenditures accrued for the reporting period. The City uses a 60-day availability period.

Revenue recognition is subject to the *measurable* and *availability* criteria for the governmental funds in the fund financial statements. *Exchange transactions* are recognized as revenues in the period in which they are earned (i.e., the related goods or services are provided). *Locally imposed derived tax revenues* are recognized as revenues in the period in which the underlying exchange transaction on which they are based takes place. *Imposed nonexchange transactions* are recognized as revenues in the period for which they were imposed. If the period of use is not specified, they are recognized as revenues when an enforceable legal claim to the revenues arises or when they are received, whichever occurs first. *Government-mandated and voluntary nonexchange transactions* are recognized as revenues when all applicable eligibility requirements have been met.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

b. Basis of Accounting and Measurement Focus (Continued)

Governmental Funds (Continued)

In the fund financial statements, governmental funds are presented using the *current financial resources measurement focus*. This means that only current assets, current liabilities and deferred inflows of resources are generally included on their balance sheets. The reported fund balance (net current assets) is considered to be a measure of “available spendable resources.” Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by noncurrent liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as *expenditures* in the year that resources were expended, rather than as fund assets. The proceeds of long-term debt are recorded as *other financing sources* rather than as a fund liability. Amounts paid to reduce long-term indebtedness are reported as fund expenditures.

Property taxes, franchise taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Proprietary Funds

The City’s internal service funds are proprietary funds. In the fund financial statements, proprietary funds are presented using the *accrual basis of accounting*. Revenues are recognized when they are earned and expenses are recognized when the related goods or services are delivered. In the fund financial statements, proprietary funds are presented using the *economic resources measurement focus*. This means that all assets and all liabilities (whether current or noncurrent) associated with their activity are included on their statements of net position. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in total net position.

Amounts paid to acquire capital assets are capitalized as assets in the internal service fund financial statements, rather than reported as an expenditure. Proceeds of long-term debt are recorded as a liability in the internal service fund financial statements, rather than as other financing sources. Amounts paid to reduce long-term indebtedness of the internal service fund are reported as a reduction of the related liability, rather than as an expenditure.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

b. Basis of Accounting and Measurement Focus (Continued)

Fiduciary Funds

The City's fiduciary funds are custodial in nature. Custodial funds use the accrual basis of accounting.

c. Major Funds, Internal Service Funds, and Fiduciary Fund Types

Given their materiality and significance, the City reports the following major governmental funds:

The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

The PVE Law Enforcement Special Revenue Fund is used to account for funds received from a voter approved direct assessment levied by the City for the purpose of funding police services.

The American Rescue Plan Act Special Revenue Fund is used to account for funds received from the federal government to cover revenue shortfalls and COVID-19 related costs.

The General Capital Improvements Capital Project Fund is used to account for funds received from the General Fund and other government sources for purposes of funding major capital projects.

Additionally, the City reports the following fund types:

Special Revenue Funds - The special revenue funds are used to account for specific revenues that are legally restricted for particular purposes.

Capital Projects Funds - The capital projects funds are used to account for resources intended to be used primarily for major capital facilities.

Internal Service Fund - The internal service fund is used to account for the financing of equipment of the City on a cost reimbursement basis. Specific fund included herein is the Equipment Replacement Fund.

Custodial Funds - The custodial funds are used to account for the resources held by the City in a fiduciary capacity to record special deposits. Specific funds included herein are the Special Deposits and Police Property Evidence Funds.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

d. Implementation of Recent GASB Pronouncements

The implementation of the following new accounting standards did not have a significant impact on the City's June 30, 2023 financial statements.

GASB Statement No. 91 – Conduit Debt Obligations. In May 2019, the Governmental Accounting Standards Board (GASB) issued Statement No. 91, *Conduit Debt Obligations* (GASB 91). GASB 91 provides guidance on the accounting and financial reporting for the conduit debt obligations as well as commitments and arrangements associated with conduit debt obligations. The requirements of this Statement will take effect for financial statements starting with the fiscal year that ends December 31, 2022.

GASB Statement No. 96 – *Subscription-Based Information Technology Arrangements* (SBITAs). The objective of this Statement is to better meet the information needs of financial statement users by (a) establishing uniform accounting and financial reporting requirements for SBITAs; (b) improving the comparability of financial statements among governments that have entered into SBITAs; and (c) enhancing the understandability, reliability, relevance, and consistency of information about SBITAs. This Statement establishes standards of accounting and financial reporting for SBITAs by a government end user (a government). The requirements of this Statement apply to financial statement of all state and local governments and are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter.

GASB Statement No. 94, “*Public-Private and Public-Public Partnerships and Availability Payment Arrangements*.” The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

GASB Statement No. 99 – Omnibus. In May 2022, the Governmental Accounting Standards Board issued Statement No. 99, “Omnibus” providing clarification guidance on several of its recent statements, including GASB Statement No. 87 *Leases* and GASB Statement No. 96 *Subscription-Based Information Technology Arrangements*. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

e. Cash and Cash Equivalents

For purposes of the statement of cash flows, cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash or so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Cash equivalents also represent the proprietary funds' share in the cash and investment pool of the City. Cash equivalents have an original maturity date of three months or less from the date of purchase. For purposes of the statement of cash flows, the entire balance of cash and investments on the combined statement of net position for the internal service fund is considered cash and cash equivalents.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

f. Investments

For financial reporting purposes, investments are adjusted to their fair value whenever the difference between fair value and the carrying amount is material. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Changes in fair value that occur during a fiscal year are recognized as *investment income or loss* reported for that fiscal year. *Investment income* includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

The City pools cash and investments of all funds. Each fund's share in this pool is displayed in the accompanying financial statements as *cash and investments*. Investment income earned by the pooled investments is allocated to the various funds based on each fund's average cash and investment balance.

g. Prepaid Costs and Inventory

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid costs. The cost of prepaid items is recorded as expenditures when consumed rather than when purchased.

Inventories are valued at cost using first-in/first-out method. The cost of such inventories is recorded as expenditures when consumed rather than when purchased.

h. Property Taxes

Property tax revenue is recognized in the fiscal year for which the taxes have been levied providing they become available. Available means due, or past due, and receivable within the current period and collected within the current period or expected to be collected soon enough thereafter (not to exceed 60 days) to be used to pay liabilities of the current period.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

h. Property Taxes (Continued)

Under California law, property taxes are assessed and collected by the counties at up to 1% of assessed value, plus other increases approved by the voters. The property taxes go into a pool and are then allocated to the cities based on complex formulas. The County of Los Angeles collects property taxes for the City. Tax liens attach annually as of 12:01 a.m. on the first day of January proceeding the fiscal year for which the taxes are levied. Taxes are levied on July 1 and cover the fiscal period July 1 to June 30. All secured personal property taxes and one-half of the taxes on real property are due November 1; the second installment is due February 1.

All taxes are delinquent, if unpaid, on December 10 and April 10. Unsecured personal property taxes become due on March 1 each year and are delinquent, if unpaid, on August 31. At June 30, 2023, there were no material delinquent, unsecured property taxes. At June 30, 2023, the total property taxes receivable of \$532,891 is included in the total receivables in the accompanying financial statements.

i. Capital Assets

Capital assets, which include all infrastructure assets acquired prior to the implementation of GASB 34 are reported in the government-wide financial statements. Capital assets are valued at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are valued at their acquisition value on the date donated.

Depreciation of all exhaustible capital assets used by the governmental activities is charged as an expense against their operations. Accumulated depreciation is reported on the statement of net position. Depreciation has been provided over the estimated useful lives using the straight-line method over the following estimated useful lives:

Building and improvements, including park improvements	7 to 35 years
Machinery, vehicles, and equipment	2 to 18 years
Furniture and fixtures	3 to 13 years
Infrastructure	15 to 100 years

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

i. Capital Assets (Continued)

The following represent the minimum threshold in which assets are capitalized:

Building and improvements, including park improvements	\$ 5,000
Machinery, vehicles, and equipment	5,000
Furniture and fixtures	5,000
Infrastructure	
Sewer:	
Pipes	20,000
Streets:	
Pavement	50,000
Sidewalks	10,000
Storm drains:	
Pipes	50,000
Outlet structures	10,000

j. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until that time. The City has the following items that qualify for reporting in this category:

- Deferred outflows related to pensions equal to employer contributions made after the measurement date of the net pension liability.
- Deferred outflows related to pensions and OPEB for differences between expected and actual experiences. These amounts are amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions and OPEB through the plans.
- Deferred outflows related to OPEB resulting from changes in assumptions. These amounts are amortized over a closed period equal to the average expected remaining service lives of all employees that are provided with OPEB through the plan.
- Deferred outflows related to pensions resulting from the difference in projected and actual earnings on investments of the pension plans fiduciary net position. These amounts are amortized over five years.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

j. Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the statement of net position and governmental funds balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The City has the following items that qualify for reporting in this category:

- Deferred inflows related to OPEB for differences between expected and actual experiences. These amounts are amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEB through the plan.
- Deferred inflows from OPEB resulting from changes in assumptions. These amounts are amortized over a closed period equal to the average expected remaining service lives of all employees that are provided with OPEB through the plans.
- Deferred inflows related to pensions for the changes in proportion and differences between the employer's contributions and the employer's proportionate share of contributions. These amounts are amortized over a closed period equal to the average of the expected remaining services lives of all employees that are provided with pensions through the plans.

k. Pension Plans

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

l. Postemployment benefits other than pensions

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the City of Palos Verdes Estates Special Retirement Income Plan for Health Insurance (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

m. Compensated Absences

City employees receive from 12 to 20 days' vacation each year, depending upon the length of service. An employee may not accumulate earned vacation time beyond the year following the year in which it is earned. Upon termination, employees with more than one year of service are paid the full value of their unused vacation time.

City employees also receive 12 personal necessity/sick leave days each year. An employee may accumulate earned personal necessity/sick leave time until termination. Upon termination, employees are entitled to receive 75% of their unused accumulated personal necessity/sick leave time above 650 hours for safety employees and above 960 hours for miscellaneous employees.

Vested or accumulated compensated absences that are expected to be liquidated currently are reported as expenditures and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated compensated absences that are not expected to be currently liquidated are reported only in the statement of net position. No expenditure has been reported for these long-term amounts. Compensated absences are reported in governmental funds only if they have matured.

n. Fund Balance

The City Council adopted resolution R11-09 in conformity with GASB 54. In the fund financial statements, governmental funds report the following fund balance classifications:

- Nonspendable includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.
- Restricted includes amounts that are constrained on the use of resources by either (a) external creditors, grantors, contributors, or laws of regulations of other governments or (b) by law through constitutional provisions or enabling legislation.
- Committed includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest authority, City Council. The formal action that is required to be taken to establish, modify, or rescind fund balance commitment is a resolution.
- Assigned includes amounts that are constrained by the government's intent to be used for specific purposes but are neither restricted nor committed. The fund balance for nonrecurring expenditures is assigned for contingencies. The City Manager or Finance Director is authorized to assign amounts to a specific purpose, which was established by the governing body through resolution.
- Unassigned includes the residual amounts that have not been restricted, committed, or assigned to specific purposes in the General Fund. In other funds, the unassigned classification is used only to report a deficit balance.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

n. Fund Balance (Continued)

An individual governmental fund could include nonspendable resources and amounts that are restricted or unrestricted (committed, assigned, or unassigned) or any combination of those classifications. Restricted or unrestricted amounts are to be considered spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available and committed, assigned, and then unassigned amounts are considered to have been spent when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

Stabilization Arrangements

A stabilization arrangement has been established through resolution R11-09. The City's general fund balance committed for emergency contingencies is established at \$8.0 million. The specific permitted uses of the committed fund balance are as follows:

- Declaration of a state or federal state of emergency or declaration of a local emergency as provided in the Palos Verdes Estates Municipal Code Section 2.28.060.
- Loss of general fund revenue in the amount of \$500,000 or more either through state action to divert or change general fund allocations or local conditions affecting a major revenue source.
- The City also monitors its unassigned fund balances in achieving policy-established target reserve levels. Unassigned General Fund balance as of June 30, 2023, totaled \$9,551,222.

o. Net Position

In the government-wide financial statements and proprietary fund financial statements, the net position is the excess of all the City's assets and deferred outflows over all its liabilities and deferred inflows, regardless of fund. Net position is divided into three categories. These categories apply only to net position, which is determined and are described below:

- Net investment in capital assets - This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt that is attributed to the acquisition, construction, or improvement of the assets.
- Restricted - This amount is restricted by external creditors, grantors, contributors, or laws or regulations of other governments.
- Unrestricted - This amount is all net position that does not meet the definition of "net investment in capital assets" or "restricted net position."

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

p. Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

2. CASH AND INVESTMENTS

Cash and Investments

Cash and investments as of June 30, 2023, were classified in the accompanying financial statements as follows:

Statement of Net Position:

Cash and investments, net of bank overdraft	\$ 38,395,496
---	---------------

Statement of Fiduciary Net Position:

Cash and investments	321,860
Total cash and investments	<u>\$ 38,717,356</u>

The cash in the bank of PVE Law enforcement (special revenue fund) has an overdraft balance of \$68,971 as of June 30, 2023. The amount is classified as due to other funds in the statement of net position.

Cash and investments as of June 30, 2023, consisted of the following:

Cash on hand	\$ 1,500
Deposits with financial institutions	680,119
Investments	<u>38,035,737</u>
Total cash and investments	<u>\$ 38,717,356</u>

Investments Authorized by the California Government Code and the City’s Investment Policy

The table below identifies the investment types that are authorized for the City by the California Government Code and the City’s investment policy. The table also identifies certain provisions of the California Government Code (or the City’s investment policy, if more restrictive) that address interest rate risk and concentration of credit risk.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates might affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the City manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the City's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity:

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment might not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the City's investment policy, and the actual rating by Standard & Poor's as of year-end for each investment type.

Investment Type	Total	Minimum Legal Rating	Minimum Rating							Not Rated
			AAA	AA+	AA	AA-	A-	BBB+

2. CASH AND INVESTMENTS (CONTINUED)

Concentration of Credit Risk

The investment policy of the City contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. There were no investments in any one issuer that represent 5% or more of total City's investments at June 30, 2023.

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to Custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. The City Treasurer may waive the collateral requirement for deposits that are fully insured up to \$250,000 by the FDIC. At June 30, 2023, all of the City's deposits are covered by FDIC or collateralized as required by law.

Investment in State Investment Pool

The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the City's investment in this pool is reported in the accompanying financial statements at amounts based upon the City's prorated share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

2. CASH AND INVESTMENTS (CONTINUED)

Investment in County Investment Pool

The City is a voluntary participant in the Los Angeles County Investment Pool (LACIP) that is regulated by the California Government Code and the Los Angeles County Board of Supervisors under the oversight of the Los Angeles County Treasurer-Tax Collector. The fair value of the City’s investment in this pool is reported in the accompanying financial statements at amounts based upon the City’s pro rata share of the fair value provided by LACIP for the entire LACIP portfolio. The balance available for withdrawal is based on the accounting records maintained by LACIP, which are recorded on an amortized cost basis.

Fair Value Measurements

The City categorizes its fair value measurement within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are quoted market prices for similar assets in active markets, and Level 3 inputs are significant unobservable inputs.

The City has the following recurring fair value measurements as of June 30, 2023:

	Quoted Prices Level 1	Observable Inputs Level 2	Unobservable Inputs Level 3	Total
US Government Agency Securities:				
Federal Farm Credit Bank	\$ -	\$ 1,882,005	\$ -	\$ 1,882,005
Federal Home Loan Mortgage Corporation	-	902,000	-	902,000
Federal Home Loan Bank	-	3,308,928	-	3,308,928
Federal National Mortgage Association	-	1,361,990	-	1,361,990
Other Securities:

Total accumulated depreciation	<u>(90,729,997)</u>	<u>(2,720,608)</u>	<u>-</u>	<u>(93,450,605)</u>
Total capital assets, being depreciated, net	<u>25,488,826</u>	<u>(2,482,845)</u>	<u>740,521</u>	<u>23,746,502</u>
Governmental activities capital assets, net	<u>\$ 30,843,521</u>	<u>\$ (1,108,885)</u>	<u>\$ -</u>	<u>\$ 29,734,636</u>

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:	
General government	\$ 528,112
Public safety	1,443,131
Public works	446,817
Parks and recreation	117,416
Internal service funds	<u>185,132</u>
Total depreciation expense - governmental activities	<u>\$ 2,720,608</u>

4. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Transfers In and Out

Transfers in and out for the fiscal year ended June 30, 2023, are as follows:

Transfers In	Transfers Out	Amount
General Fund	PVE Law Enforcement Revenue Fund	\$ 5,089,296
General Capital Improvements		
Capital Project Fund	General Fund	564,118
	Other Governmental Funds	1,494,159
Internal Service Fund	Other Governmental Funds	209,930
		\$ 7,357,503

The PVE Law Enforcement Special Revenue Fund transferred \$5.1 million to the General Fund for Police Department related expenditures.

Transfer to General Capital Improvements Capital Projects Fund is for capital improvement projects.

Other governmental funds transferred to the Internal Service Fund for Fund Communication System.

5. LONG-TERM LIABILITIES

A summary of changes in long-term liabilities for the fiscal year ended June 30, 2023, is as follows:

	Balance at July 1, 2022	Additions	Deletions	Balance at June 30, 2023	Due Within One Year	Due in More Than One Year
Compensated absences	\$ 761,970	\$ 661,152	\$ 718,620	\$ 704,502	\$ 354,000	\$ 350,502

Compensated Absences

General fund has been used in prior years to liquidate the liability of compensated absences and plan benefits.

6. LIABILITY, WORKERS' COMPENSATION, AND PURCHASED INSURANCE

a. Description of Self-Insurance Pool Pursuant to Joint Powers Agreement

The City is a member of the California Joint Powers Insurance Authority (Authority). The Authority is composed of 123 California public entities and is organized under a joint powers agreement pursuant to California Government Code §6500 et seq. The purpose of the Authority is to arrange and administer programs for the pooling of self-insured losses, to purchase excess insurance or reinsurance, and to arrange for group purchased insurance for property and other lines of coverage.

The California JPIA began covering claims of its members in 1978. Each member government has an elected official as its representative on the Board of Directors. The Board operates through a nine-member Executive Committee.

b. Primary Self-Insurance Programs of the Authority

Each member pays an annual contribution at the beginning of the coverage period. A retrospective adjustment is then conducted annually thereafter, for coverage years 2012-13 and prior. Coverage years 2013-14 and forward are not subject to routine annual retrospective adjustment. The total funding requirement for primary self-insurance programs is based on an actuarial analysis. Costs are allocated to individual agencies based on payroll and claims history, relative to other members of the risk-sharing pool.

Primary Liability Program

Claims are pooled separately between police and general government exposures. (1) The payroll of each member is evaluated relative to the payroll of other members. A variable credibility factor is determined for each member, which establishes the weight applied to payroll and the weight applied to losses within the formula. (2) The first layer of losses includes incurred costs up to \$100,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the first layer. (3) The second layer of losses includes incurred costs from \$100,000 to \$500,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the second layer. (4) Incurred costs from \$500,000 to \$50 million, are distributed based on the outcome of cost allocation within the first and second loss layers.

The overall coverage limit for each member, including all layers of coverage, is \$50 million per occurrence. Subsidence losses also have a \$50 million per occurrence limit. The coverage structure is composed of a combination of pooled self-insurance, reinsurance, and excess insurance. Additional information concerning the coverage structure is available on the Authority's website: <https://cjpia.org/coverage/risk-sharing-pools/>.

6. LIABILITY, WORKERS' COMPENSATION, AND PURCHASED INSURANCE (CONTINUED)

b. Primary Self-Insurance Programs of the Authority (Continued)

Workers' Compensation Program

The City also participates in the workers' compensation program administered by the Authority. Claims are pooled separately between public safety (police and fire) and general government exposures. (1) The payroll of each member is evaluated relative to the payroll of other members. A variable credibility factor is determined for each member, which establishes the weight applied to payroll and the weight applied to losses within the formula. (2) The first layer of losses includes incurred costs up to \$75,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the first layer. (3) The second layer of losses includes incurred costs from \$75,000 to \$200,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the second layer. (4) Incurred costs from \$200,000 to statutory limits are distributed based on the outcome of cost allocation within the first and se

For 2022-23 the Authority's Primary Workers' Compensation Program covers the first \$1 million, with reinsurance to statutory limits under California Workers' Compensation Law. Employer's Liability losses are pooled among members to \$1 million. Coverage from \$1 million to \$5 million is purchased through reinsurance policies, and Employer's Liability losses from \$5 million to \$10 million are pooled among members.

c. Purchased Insurance

Pollution Legal Liability Insurance

The City participates in the pollution legal liability insurance program which is available through the Authority. The policy covers sudden and gradual pollution of scheduled property, streets, and storm drains owned by the City. Coverage is on a claims-made basis. There is a \$250,000 deductible. The Authority has an aggregate limit of \$20 million.

Property Insurance

The City participates in the all-risk property protection program of the Authority. This insurance protection is underwritten by several insurance companies. City property is currently insured according to a schedule of covered property submitted by the City to the Authority. The City property currently has all-risk property insurance protection in the amount of \$46,804,465. There is a \$10,000 deductible per occurrence except for non-emergency vehicle insurance which has a \$2,500 deductible.

Earthquake and Flood Insurance

The City purchases earthquake and flood insurance on a portion of its property. The earthquake insurance is part of the property protection insurance program of the Authority. City property currently has earthquake protection in the amount of Non Participant. There is a deductible of 5% per unit of value with a minimum deductible of \$100,000.

6. LIABILITY, WORKERS' COMPENSATION, AND PURCHASED INSURANCE (CONTINUED)

c. Purchased Insurance (Continued)

Crime Insurance

The City purchases crime insurance coverage in the amount of \$1,000,000 with a \$2,500 deductible. The fidelity coverage is provided through the Authority.

d. Adequacy of Protection

During the past three fiscal years, none of the above programs of protection experienced settlements or judgments that exceeded pooled or insured coverage. There were also no significant reductions in pooled or insured liability coverage in 2022-23.

7. DEFINED BENEFITS PENSION PLANS

The following is a summary of pension-related items as of and for the year ended June 30, 2023:

	Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Credit
CalPERS Miscellaneous	\$ 5,253,947	\$ 2,456,700	\$ 437,830	\$ 40,236
CalPERS Safety	14,789,600	6,813,530	952,480	448,950
	\$ 20,043,547	\$ 9,270,230	\$ 1,390,310	\$ 489,186

General Information about the Pension Plans

Plan Descriptions

All qualified permanent and probationary employees are eligible to participate in the City's Miscellaneous and Safety cost-sharing multiple-employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS), which acts as a common investment and administrative agent for its participating member employers. Benefit provisions under the Plans are established by State statute and City resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

7. DEFINED BENEFITS PENSION PLANS (CONTINUED)

General Information about the Pension Plans (Continued)

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 to 62 with statutorily reduced benefits. For employees hired into a plan with the 1.5% at 65 formula, eligibility for service retirement is age 55 with at least five years of services. PEPRAs miscellaneous members become eligible for service retirement upon attainment of age 52 with at least five years of service. All members are eligible for non-duty disability benefits after five years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. Safety members can receive a special death benefit if the member dies while actively employed and the death is job-related. Fire members may receive the alternate death benefit in lieu of the Basic Death Benefit or the 1957 Survivor Benefit if the member dies while actively employed and has at least 20 years of total CalPERS service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

Below is a summary of the plans' provisions and benefits in effect at the June 30, 2022 measurement date, for which the City has contracted:

Major Benefit Options	Miscellaneous	
	Classic	PEPRA
Hire date	Prior to January 1, 2013	On or after January 1, 2013
Benefit provision/benefit formula	2.0%@55	2.0%@62
Social security	No	No

Payment of unfunded liability	\$ 1,841,549	\$ -

Contribution Description

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers are determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. City contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contributions requirements are classified as plan member contributions.

The net pension liability is primarily liquidated from the General Fund.

7. DEFINED BENEFITS PENSION PLANS (CONTINUED)

Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2023, the City reported net pension liabilities for its proportionate share of the net pension liability of each Plan as follows:

	Proportionate Share of Net Pension Liability
Miscellaneous	\$ 5,253,947
Safety	14,789,600
Total net pension liability	\$ 20,043,547

The City of Palos Verdes Estates' net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2022, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021 rolled forward to June 30, 2022 using standard update procedures. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

The change in proportionate share of the net pension liability for each Plan during the measurement period ended June 30, 2022 were as follows:

	Miscellaneous	Safety
Proportion - June 30, 2021	0.13582%	0.24733%
Proportion - June 30, 2022	0.11228%	0.21523%
Change - Decrease	-0.02354%	-0.03210%

7. DEFINED BENEFITS PENSION PLANS (CONTINUED)

Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

For the year ended June 30, 2023, the City recognized pension credit of \$40,236 and \$448,950 for the Miscellaneous and Safety Plans, respectively. At June 30, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Miscellaneous		Safety	
	Deferred outflows of resources	Deferred inflows of resources	Deferred outflows of resources	Deferred inflows of resources
Pension contributions subsequent to measurement date	\$ 766,316	\$ -	\$ 2,242,983	\$ -
Difference between expected and actual experience	105,510	(70,666)	612,088	(160,603)
Net differences between projected and actual earnings on plan investments	962,384	-	2,335,485	-
Change in employer's proportion	84,113	(122,281)	131,735	(62,209)
Changes of Assumptions	538,377	-	1,491,239	-
Difference between the employer's contributions and the employer's proportionate share of contributions	-	(244,883)	-	(729,668)
Total	\$ 2,456,700	\$ (437,830)	\$ 6,813,530	\$ (952,480)

Amounts of \$766,316 and \$2,242,983 reported as deferred outflows of resources related to contributions subsequent to the measurement date for the Miscellaneous and Safety Plans, respectively, will be recognized as a reduction of the net pension liability in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ending	Miscellaneous	Safety	Total
June 30			
2024	\$ 276,645	\$ 978,722	\$ 1,255,367
2025	246,748	775,495	1,022,243
2026	140,534	439,175	579,709
2027	588,627	1,424,675	2,013,302
2028	-	-	-
Thereafter	-	-	-
	\$ 1,252,554	\$ 3,618,067	\$ 4,870,621

7. DEFINED BENEFITS PENSION PLANS (CONTINUED)

Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Actuarial Assumptions

The total pension liability for the June 30, 2022 measurement period was determined by an actuarial valuation as of June 30, 2021, with update procedures used to roll forward the total pension liability to June 30, 2022. The total pension liability was based on the following assumptions:

Actuarial Assumptions

Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
Actuarial Cost Method	Entry-Age Normal Cost Method

Actuarial Assumptions

Discount rate	6.90%
Inflation	2.30%
Salary increase	Varied by Entry Age and Service
Mortality rate table (1)	Derived using CalPERS' Membership Data for all Funds
Post retirement benefit increase	(2)

- (1) The mortality table was developed based on CalPERS-specific data. The rates incorporate Generational Mortality to capture ongoing mortality improvement using 80% of Scale MP 2020 published by the Society of Actuaries. For more details, please refer to the 2021 experience study report that can be found on the CalPERS website.
- (2) Contract COLA up to 2.30% until Purchasing Power Protection Allowance Floor on Purchasing Power

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated and, combined with risk estimates, are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return.

7. DEFINED BENEFITS PENSION PLANS (CONTINUED)

Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Long-Term Expected Rate of Return (Continued)

The expected real rates of return by asset class are as follows:

<u>Asset Class</u>	<u>Assumed Asset Allocation</u>	<u>Real Return Years 1 - 10 (1, 2)</u>
Global equity - cap-weighted	30%	4.45%
Global equity non-cap-weighted	12%	3.84%
Private Equity	13%	7.28%
Treasury	5%	0.27%
Mortgage-backed Securities	5%	0.50%
Investment Grade Corporates	10%	1.56%
High Yield	5%	2.27%
Emerging Market Debt	5%	2.48%
Private Debt	5%	3.57%
Real Assets	15%	3.21%
Leverage	-5%	-0.59%
Total	<u>100.00%</u>	

- (1) An expected inflation of 2.30% used for this period.
- (2) Figures are based on the 2021-22 Asset Liability Management study.

Discount Rate

The discount rate used to measure the total pension liability was 6.90% for the Plan and reflects the long-term expected rate of return for the Plan net of investment expenses and without reduction for administrative expenses. To determine whether the municipal bond rate should be used in the calculation of a discount rate for the plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing of the Plans, the tests revealed the asset would not run out. Therefore, the current 6.90% discount rate is appropriate, and the use of the municipal bond rate calculation is not deemed necessary. The long term expected discount rate of 6.90% will be applied to all plans in the Public Employees Retirement Fund (PERF). The cash flows used in the testing were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. The stress test results are presented in a detailed report called "GASB 68 Crossover Testing Report" that can be obtained at CalPERS's website under the GASB 68 section.

7. DEFINED BENEFITS PENSION PLANS (CONTINUED)

Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the City’s proportionate share of the net pension liability for each Plan, calculated using the discount rate for each Plan, as well as what the City’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

		Miscellaneous		Safety
1% Decrease		5.90%		5.90%
Net pension liability	\$	7,960,702	\$	21,603,113
Current discount rate		6.90%		6.90%
Net pension liability	\$	5,253,947	\$	14,789,600
1% increase		7.90%		7.90%
Net pension liability	\$	3,026,960	\$	9,221,092

Pension Plan Fiduciary Net Position

Detailed information about each pension plan’s fiduciary net position is available in the separately issued CalPERS financial reports. See CalPERS website for additional information.

Payable to the Pension Plan

At June 30, 2023, the City had no outstanding amount of contributions to the pension plan required for the year ended June 30, 2023.

8. OTHER POST EMPLOYMENT BENEFITS (OPEB)

Description of Plan

The City provides a Special Retirement Income Plan for Health Insurance, a single employer defined benefit post-employment healthcare plan, which covers eligible City employees to assist qualified retirees in purchasing health insurance. The plan was established and is administered by the City to provide a fixed monthly cash payment (\$275 per month for general, management and police employees) to qualifying retirees until they reach the age of 65 as required under various memoranda of understanding (MOU) with the City’s employee groups. A separate report is not prepared by the plan. The plan was previously reported as one of the pension plans.

8. OTHER POST EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Benefits Provided

The following summarizes the primary characteristics of the benefit:

	<u>General Employees</u>	<u>Management</u>	<u>Police</u>
Benefit types provided	Retirement income	Retirement income	Retirement income
Duration of benefits	Until Medicare Eligible	Until Medicare Eligible	Until Medicare Eligible
Required service	20 years	20 years	20 years
Minimum age	50	50	50
Dependent coverage	No	No	No
City contribution %	100%	100%	100%
Benefit amount	\$275 per month	\$275 per month	\$275 per month

Employees Covered

At the measurement date of June 30, 2023, the following employees were covered by the benefit terms of the Plan:

Employees Covered	
Inactive employees currently receiving benefits	12
Participating active employees	48
Total	<u>60</u>

Funding Policy and Contribution Rates

Currently, contributions are not required from plan members. The City pays benefits as they come due. Retirement income benefits cannot be increased unless new labor agreements (MOU) are entered into. No assets are accumulated in a trust that meets the criteria in paragraph 3 of GASB 74. Plan assets have not been accumulated in a separately established trust fund.

8. OTHER POST EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Total OPEB Liability

The City’s total OPEB liability for the plan is measured as the total OPEB liability. There are no fiduciary plan net position. The total OPEB liability of the Plan is measured as of June 30, 2023, using an actuarial valuation date of June 30, 2022. As summary of principal assumptions and methods used to determine the total OPEB liability is shown below.

Actuarial Assumptions

Actuarial Cost Method	Entry-Age normal cost method
Actuarial Assumptions	
Discount rate	3.86%
Inflation	2.30%
Payroll growth	2.80% wage inflation based on CalPERS Experience Study and Review of Actuarial Assumptions published in November 2021
Healthcare cost rate	(1)
Mortality rate table	(2)

(1) Not applicable since the benefit provided is a flat dollar healthcare stipend that is not expected to increase in the future.

(2) Based on CalPERS Experience Study and Review of Actuarial Assumptions published in November 2021 for Public Agency Miscellaneous and Police members.

Change of Assumptions

The following assumptions have been updated since the last valuation:

1. The Single Equivalent Discount Rate (SEDR) has increased from 3.69% as of June 30, 2022, to 3.86% as of June 30, 2023 based on the updated municipal bond index, which caused a decrease in the City’s liability.
2. Employees are eligible for healthcare stipend of up to \$275 per month from their date of retirement until Medicare eligibility. The stipend is not expected to increase in the future.

Discount Rate

The discount rate used to measure the total OPEB liability was 3.86% for the plan. Since there are no assets accumulated in a separately established trust fund, the discount rate was based on the Fidelity municipal government-obligation AA-rated 20-yr bond index rate.

8. OTHER POST EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Changes in the Total OPEB Liability

Balance at June 30, 2022	\$	381,804
Changes in the year:		
Service cost		11,828
Interest on the total OPEB liability		13,892
Difference between expected and actual experience		(7,665)
Change in assumptions		(3,362)
Benefit payments		<u>(34,650)</u>
 Current year changes		 <u>(19,957)</u>
 Balance at June 30, 2023	 \$	 <u><u>361,847</u></u>

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the City’s total OPEB liability for the Plan, calculated using the discount rate for the Plan, as well as what the City’s total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

1% Decrease		2.86%
Total OPEB liability	\$	382,078
 Current discount rate		 3.86%
Total OPEB liability	\$	361,847
 1% increase		 4.86%
Total OPEB liability	\$	342,717

8. OTHER POST EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rate

The following presents the City’s total OPEB liability for the Plan, calculated using the healthcare cost trend rate for the Plan, as well as what the City’s total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

1% Decrease	
Total OPEB liability ¹	\$ 361,847
Healthcare trend rate	
Total OPEB liability ¹	\$ 361,847
1% increase	
Total OPEB liability ¹	\$ 361,847

¹ The Total OPEB liability remains the same regardless of healthcare trend rates since the benefit provided is a flat dollar healthcare stipend that is not expected to increase in the future.

OPEB Expenses and Deferred Outflows/Inflows of Resources

For the year ended June 30, 2023, the City recognized OPEB expense of \$11,929. At June 30, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	\$ 20,034	\$ (48,201)
Change in assumptions	24,547	(79,997)
Total	\$ 44,581	\$ (128,198)

Amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ending June 30	Amounts
2024	\$ (13,791)
2025	(13,791)
2026	(13,791)
2027	(13,791)
2028	(13,791)
Thereafter	(14,662)

8. OTHER POST EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Payable to the Pension Plan

At June 30, 2023, there was no outstanding amount of contributions payable to the OPEB plan for the year ended June 30, 2023.

9. JOINT VENTURES

Palos Verdes Peninsula Transit Joint Powers Authority

The City is a member of the Palos Verdes Peninsula Transit Joint Powers Authority. The Transit Authority is comprised of three member cities and is organized under a Joint Powers Agreement pursuant to the California Government Code. Each member City provides an annually determined contribution toward the ongoing operation. The City does not have a specified equity interest; however, in the event of dissolution of the Authority, available assets shall be distributed to the member agencies in proportion to the aggregate contribution made by each member agency during the entire term of the agreement. The purpose of the Authority is to study, implement, and provide a public transit system within and around the Palos Verdes Peninsula. These transit services include Palos Verdes Transit, Dial-A-Ride, and a fixed-route shuttle service.

The Palos Verdes Peninsula Transit Authority's fiscal year ends on June 30. As of June 30, 2023, audited financial statements indicated the following:

Total assets	\$ 4,850,360
Total liabilities	149,870
Total Net Position	4,700,490
Revenues	2,612,201
Expenses	2,791,497
Net change in net position	(179,296)

Separate financial statements are available from the Authority office at 38 Crest Road West, Rolling Hills, CA 90274-7400.

10. CONTINGENCIES

There are several pending lawsuits in which the City is involved. Legal counsel estimates that the potential claims against the City not covered by insurance resulting from such litigation would not materially affect the financial statements of the City.

11. LAW ENFORCEMENT PARCEL TAX

In April of 2018, the citizens approved Measure E, the Law Enforcement Parcel Tax. The tax is to remain in effect for nine years starting with the FY 2019 property tax year. The measure requires annual review by the Law Enforcement Services Special Tax Oversight Committee (LESSTOC).

Pursuant to the terms of the measure, the use of the revenues generated by the parcel tax are “restricted to obtaining, providing, operating, and maintaining local and independent community based law enforcement services throughout the entire City, which shall include paying the salaries and benefits of police personnel, upgrading technology and safety equipment, maintaining response times, paying for any such other necessary law enforcement expenses and paying the direct costs in levying this tax”.

Additionally, the City is required to file a report at least annually, no later than July 1 of each calendar year containing (i) the amount of funds collected and expended under this ordinance; and (ii) the status of any project required or authorized to be funded to carry out the purposes stated above.

Finally, LESSTOC is to annually review and audit expenditures of revenues derived from the Law Enforcement Services Parcel Tax. LESSTOC has requested that information pertaining to the receipt and use of these funds be included in the City’s annual financial report.

Activities related to the Law Enforcement Parcel Tax for the fiscal year ended June 30, 2023 are as follows:

(a)	-	(b)	=	(c)
Actual Special Tax Revenue Received		Actual Allowable Law Enforcement Expenses		Special Tax Revenue Over/(Under) Allowable Expenses
\$ 5,089,297	-	7,454,079	=	\$ (2,364,782)

12. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

For the fiscal year ended June 30, 2023, public works expenditures exceeded appropriations in the General Fund by \$59,826.

For the fiscal year ended June 30, 2023, expenditures exceeded appropriations in the Gas Tax Fund (nonmajor) special revenue fund and Sewer Funds (nonmajor) capital project fund by \$2,017 and \$3,771, respectively. The necessary budget amount was underestimated when completing the budget for these funds in the fiscal year 2023.

13. PRIOR PERIOD ADJUSTMENT AND DEFERRED REVENUE

The beginning fund balance of the General Fund was restated to reflect the adjustments related to the first tranche of ARPA funds received in FY 21/22 which was transferred to the General Fund as reported in the June 30, 2022 financial statements. The City deferred the recognition of revenue with the reallocation of the funds for use in public safety expenditures in the next fiscal year.

	General Fund
Fund Balance, as previously reported	\$ 26,278,788
Adjustment to defer the recognition of ARPA funds	<u>(1,587,592)</u>
Fund balance, as restated	<u>\$ 24,691,196</u>

Accordingly, the beginning net position of the governmental activities was restated as follows:

Net position, beginning, as previously reported	\$ 51,070,273
Adjustment to defer the recognition of ARPA funds	<u>(1,587,592)</u>
Net position, beginning, as restated	<u>\$ 49,482,681</u>

The \$1,587,592 was transferred back to American Rescue Plan Act (ARPA) Special Revenue Fund and reported as unearned revenue as of June 30, 2023. The City plans to use the ARPA grant revenues received in fiscal years 2021/22 and 2022/23 in FY23/24 to pay for a portion of fire services. As such, these funds are recorded as deferred revenue as of June 30, 2023.

14. GOVERNMENTAL ACCOUNTING STANDARDS BOARD STATEMENT ISSUED, NOT YET EFFECTIVE

GASB has issued several pronouncements, that have effective dates that may impact future financial presentations. Management has not yet determined any impact the implementation of the following statements may have on the financial statement of the City.

GASB No. 100

In May 2022, the Governmental Accounting Standards Board issued Statement No. 100, “Accounting Changes and Error Corrections – An Amendment of GASB Statement No. 62.” The requirements of this Statement are effective for the fiscal year ending June 30, 2024. The Statement enhances accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability.

14. GOVERNMENTAL ACCOUNTING STANDARDS BOARD STATEMENT ISSUED, NOT YET EFFECTIVE (CONTINUED)

GASB No. 101

In May 2022, the Governmental Accounting Standards Board issued Statement No. 101, “*Compensated Absences*.” The requirements of this Statement are effective for the fiscal year ending June 30, 2025. This Statement requires alignment of the recognition and measurement guidance under a unified model and by amending certain previously required disclosures.

15. SUBSEQUENT EVENTS

In preparing these financial statements, the City has evaluated events and transactions for potential recognition or disclosure through July 23, 2024, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

Notes to Schedule:

Benefit Changes:

There were no changes in benefits.

Changes in Assumptions:

Effective with the June 30, 2021 valuation date (2022 measurement date), the accounting discount rate was reduced from 7.15% to 6.90%. In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated, combined with risk estimates, and are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. In addition, demographic assumptions and the inflation rate assumption were changed in accordance with the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. The accounting discount rate was 7.15% for measurement dates 2017 through 2021, 7.65% for measurement dates 2015 through 2016, and 7.50% for measurement date 2014.

* Fiscal year 2015 was the first year of implementation and therefore only nine years are shown.

Notes to Schedule:

Benefit Changes:

There were no changes in benefits.

Changes in assumptions:

Effective with the June 30, 2021 valuation date (2022 measurement date), the accounting discount rate was reduced from 7.15% to 6.90%. In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated, combined with risk estimates, and are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. In addition, demographic assumptions and the inflation rate assumption were changed in accordance with the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. The accounting discount rate was 7.15% for measurement dates 2017 through 2021, 7.65% for measurement dates 2015 through 2016, and 7.50% for measurement date 2014.

* Fiscal year 2015 was the first year of implementation and therefore only nine years are shown.

1. BUDGETARY DATA

Budgets are reported on the same basis as the funds and are adopted on a basis consistent with U.S. GAAP. Annual appropriated budgets are adopted for the General, Special Revenue, and Capital Projects Funds consistent with U.S. GAAP. Accordingly, actual revenues and expenditures can be compared with related budgeted amounts without any significant reconciling items.

Budgets are monitored at varying levels of classification detail. For the General Fund, expenditures cannot legally exceed total appropriations at the department level. For other funds, expenditures are controlled at the fund level. However, the City Manager is authorized to transfer amounts within individual fund budgets and between departments up to \$10,000. Budgets are adopted for all funds except for the CARES Act Special Revenue Fund. Budgetary revisions that alter the total appropriations of a fund and/or a capital project must be approved by the City Council. Unexpended budgetary appropriations lapse at year-end. Budgeted amounts, as shown, include the originally adopted budget, reappropriated prior-year obligations, as well as any amendments authorized by the City Council.

THIS PAGE INTENTIONALLY LEFT BLANK

SUPPLEMENTARY INFORMATION

THIS PAGE INTENTIONALLY LEFT BLANK

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted for particular purposes. The City uses the following Nonmajor Special Revenue Funds:

Gas Tax - to account for state and county gas taxes, which funds may be used for street maintenance, right-of-way acquisition, and street construction.

Drug Intervention - to account for funds received from the L.A. IMPACT, an association of local governmental agencies, related to drug enforcement activities. The funds are earmarked for the City's drug intervention programs.

SLESF - to account for COPS funds received from the State of California.

Special Projects - to account for funds received from other governmental agencies that are earmarked for separate projects.

Corrections - to account for funds received from the State Department of Corrections.

Road Maintenance and Rehabilitation Account (RMRA) - To account for the City's share of gas tax monies for the purpose of construction, reconstruction, maintenance, and right-of-way acquisition relating to streets and highways.

Measure M - to account for the City's share of funds collected and distributed by the County of Los Angeles under Measure M for transportation purposes within the City.

Proposition A - to account for funds collected and distributed by the County of Los Angeles and under Proposition A to finance transit projects within the City.

Measure R - to account for the City's share of funds collected and distributed by the County of Los Angeles under Measure R for transportation purposes within the City.

Proposition C - to account for City's share of funds collected and distributed by the County of Los Angeles under Proposition C for transportation purposes within the City.

Measure W - to account for the special tax of 2.5 cents per square feet of impermeable area for parcels located in Los Angeles County Flood Control District to pay for projects, infrastructure, and programs to capture, treat, and recycle rainwater.

Air Quality Management District (AQMD) - This fund accounts for monies received from the County of Los Angeles for enacting policies to improve air quality.

CARES Act - to account for the CARES Act federal funding received to respond to the COVID-19 public health emergency.

NONMAJOR GOVERNMENTAL FUNDS (CONTINUED)

CAPITAL PROJECTS FUND

The Capital Projects Funds are used to account for resources intended to be used primarily for major capital facilities.

Sewer - is used to account for funds received from a retired direct assessment levied by the City for the purpose of funding major sewer projects. Residual assessment funds that remain are to be used exclusively for sewer maintenance, repairs, and projects.

Parklands - is used to make improvements to/in the City's parklands.

CUSTODIAL FUNDS

Custodial Funds are used to account for assets held by the government as an agent for individuals, other governments, and/or other funds. The City uses the following Custodial Funds:

Special Deposits Fund - to account for monies held by the City for various organizations and individuals.

Police Property/Evidence Fund - to account for monies seized mostly from drug sales and from unclaimed property held by the City.

2021	7,942,412	78,896	3,379	5,039	8,019,648	0.1113%
2022	8,212,499	69,358	3,844	6,351	8,279,350	0.1114%
2023	8,689,274	78,177	5,151	9,118	8,763,484	0.1115%

Note: In 1978 the voters of the State of California passed Proposition 13 which limited property taxes to a total maximum rate of 1% based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor" (limited to a maximum increase of 2%). With few exceptions, property is only re-assessed at the time that it is sold to a new owner. At that point, the value is reassessed at the purchase price of the property. The assessed valuation data shown above represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitations described above.

Note: The City annually levies on each eligible property a "special tax" to finance the cost of City's Law Enforcement services. There are two components of the tax 1.) a base amount per lot and 2.) a cost per square foot of building improvements.

The Law Enforcement Services Special Tax was voter approved on April 10, 2018 and commences with fiscal year 2018/2019.

Sources: Callifornia Municipal Statistics and HDL.

Note (1): Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. The schedule estimates the portion of the outstanding debt of those overlapping governments, that is borne by the residents and businesses of the City of Palos Verdes Estates. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this doe not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the country's taxable assessed value that is within the boundaries of the city and dividing it by the district's total taxable assessed value.

Note (2): Paid with voter-approved direct assessment.

Note: The Government Code of the State of California provides for a legal debt limit of 15% of gross assessed valuation. However, this provision was enacted when assessed valuation was based upon 25% of market value. Effective with the 1981-82 fiscal year, each parcel is now assessed at 100% of market value (as of the most recent change in ownership for that parcel).

Note (1): The City is a residential community with two small commercial areas - Malaga Cove Plaza and Lunada Bay Plaza. The school district's administrative offices, as well as four schools are located in Palos Verdes Estates. The district employs administrative staff, teachers and other school employees. The most common businesses registered with the City and reporting employees are real estate/escrow companies and restaurants. The City has classified employers by type of business.

(2) "Total Employment" as used above represents the total employment of all employers located within City limits, not just those businesses listed.
