

RESOLUTION NO. R03-05

**RESOLUTION OF THE CITY OF PALOS VERDES ESTATES
DECLARING PUBLIC NUISANCE**

WHEREAS, hazardous brush, dry grass, weeds, combustible growth or flammable vegetation, including native and ornamental vegetation, where growing upon or in front of real property often attain such growth as to become, when dry, a fire menace to said or adjacent improved parcels or which are otherwise noxious or dangerous; and

WHEREAS, the presence of hazardous brush, dry grass, weeds, combustible growth or flammable vegetation, including native and ornamental vegetation, upon or in front of real property are conditions which endanger the public safety and constitute a public nuisance and therefore should be abated; and

WHEREAS, such hazardous brush, dry grass, weeds, combustible growth or flammable vegetation, including native and ornamental vegetation, are a seasonal and recurrent nuisance on or in front of real property located within the City of Palos Verdes Estates (the "City"); and

WHEREAS, the City has a duty of protect the public safety and to take any and all actions necessary to abate a public nuisance; and

WHEREAS, the County of Los Angeles Fire Department conducts annual inspections to verify existing hazards and public nuisances where such hazardous brush, dry grass, weeds, combustible growth or

flammable vegetation, including native and ornamental vegetation, on the hereinafter described real property; and

WHEREAS, Division 12, Part 5 of the California Health and Safety Code (Sections 14875 through 14922, inclusive), authorizes the City Council, by resolution, to declare a public nuisance and to authorize the abatement thereof.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF PALOS VERDES ESTATES AS FOLLOWS:

SECTION 1. Council Finds. The City Council of the City of Palos Verdes Estates hereby finds that hazardous brush, dry grass, weeds, combustible growth or flammable vegetation, including native and ornamental vegetation, in and upon and in front of the real property hereinafter described in Exhibit 1 (the "Real Property"), when verified by inspection by the County of Los Angeles Fire Department are hereby declared to be a seasonal recurrent public nuisance which should be abated.

SECTION 2. Notice. (a) The County of Los Angeles Fire Department (the "Department") is hereby designated, authorized, and directed to give notice to destroy said hazardous brush, dry grass, weeds, combustible growth or flammable vegetation to include native and ornamental vegetation from the Real Property.

(b) Not less than 10 days prior to the date of the hearing, the Department shall cause notice to be given to each owner of Real Property by mail as their names and residential addresses and a description of the property in question appear from the last equalized assessment roll, or as they are known to the clerk, and said notice shall be substantially in the form as provided in Exhibit 2 of this resolution.

SECTION 3. Hearing. In conjunction with the Department, on Tuesday, the 25th of February 2003, at the hour of 7:30 p.m., in the Council Chamber of the City, located at 340 Palos Verdes Drive West, Palos Verdes Estates is fixed by the City as the time and place when and where any and all owners of Real Property having any objections to the aforementioned proposed removal of hazardous brush, dry grass, weeds, combustible growth or flammable vegetation, including native and ornamental vegetation, following inspection and further notice by the Department may appear before the Brush Clearance Referee and show cause why said hazardous brush, dry grass, weeds, combustible growth or flammable vegetation, including native and ornamental vegetation, should not be removed in accordance with this Resolution, and said objections will then and there be heard and given due consideration.

SECTION 4. Recovery of Inspection Costs. (a) The Department and the Agricultural Commissioner are hereby authorized and directed to recover its abatement enforcement costs in a manner consistent with prior action of the Board of Supervisors when they adopted an Administrative Penalty, Abatement Enforcement Cost, and an inspection fee on all Real Properties failing to comply with the second official notice to abate hazards on property identified during physical inspection by the Department. The recovery of these costs is vital to the ongoing operation governing the identification and abatement of those properties that constitute a public nuisance and endanger the public safety.

(b) The owners of the Real Property, upon which, or in front of which the nuisance exists, shall be presented, both in writing and at the above referenced hearing, with information regarding the cost of inspection, abatement enforcement, and non-compliance penalties.

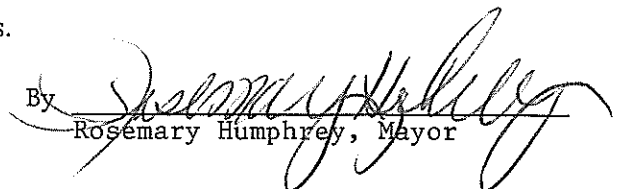

The foregoing resolution was adopted on the 11th day of February, 2003, by the City Council of the City of Palos Verdes Estates.

By

City Clerk of the City of Palos Verdes Estates

By

Rosemary Humphrey, Mayor

EXHIBIT 1

DESCRIPTION OF PROPERTIES

In accordance with Chapter 2, Part 5, Division 12 of the California Health and Safety Code (commencing with Section 14880), the Real Property, upon which, or in front of which the nuisance exists, are hereby described in the attached Declaration List of Properties.

EXHIBIT 2

NOTICE TO DESTROY HAZARDOUS BRUSH, DRY GRASS, WEEDS,
COMBUSTIBLE GROWTH OR FLAMMABLE VEGETATION
INCLUDING NATIVE AND ORNAMENTAL VEGETATION

NOTICE IS HEREBY GIVEN THAT ON the 11th of February, 2003 the City Council of Palos Verdes Estates passed or will pass a resolution declaring that hazardous brush, dry grass, weeds, combustible growth or flammable vegetation, including native and ornamental vegetation, where growing upon or in front of said improved property as specifically described by parcel number in the resolution, to be a potential fire hazard or nuisance which, upon inspection by the County of Los Angeles Fire Department is verified to be an existing hazard or nuisance and violation of the County Fire Code pertaining to clearance of brush and vegetative growth, must be removed and the nuisance abated by County authorities and the cost of removal assessed upon the land. In addition, the Board of Supervisors authorized and directed the County of Los Angeles Fire Department and the Agricultural Commissioner to recover their costs related to the enforcement of the fire code. All property owners having objection to the removal of brush, dry grass, weeds, combustible growth or flammable vegetation, including native and ornamental vegetation, are hereby notified that they may attend a meeting of the City Council of the City of Palos Verdes Estates to be held in the Council Chamber of said city at 7:30 p.m. on February 25, 2003, when their objections will be heard and given due consideration. If the property owner does not want to present objections to the proposed removal of hazardous brush, dry grass, weeds, combustible growth or flammable vegetation including natives and ornamentals, or the recovery of enforcement and abatement costs, he/she need not appear at the above-mentioned meeting(s).

City Clerk of the City of Palos Verdes Estates

STATE OF CALIFORNIA)

COUNTY OF LOS ANGELES)

JOHN R. TODD, ASSISTANT CHIEF, FORESTRY, COUNTY OF LOS ANGELES FIRE DEPARTMENT, being duly sworn says: That on or before the 13th of February, 2003, he mailed or caused to be mailed 472 "Improved Property Annual Brush Clearance Notices" to the owners of each of the properties described in the attached list as their names and residential addresses and a description of the property in question appear from the last equalized assessment roll, or as known to the clerk, a notice or notices to destroy hazardous brush, dry grass, weeds, combustible growth or flammable vegetation, including native and ornamental vegetation, of which the annexed is a true copy, and setting the 25th day of February 2003, as the date upon which owners of said property could attend a meeting of the Brush Clearance Referee, when their objections will be heard and given due consideration.

I have personal knowledge of the foregoing, and if called upon could competently testify thereto.

I declare under penalty of perjury that the foregoing is true and correct.

IMPROVED PROPERTY ANNUAL BRUSH CLEARANCE NOTICE

**NOTICE TO DESTROY HAZARDOUS BRUSH, DRY GRASS, WEEDS,
COMBUSTIBLE GROWTH OR FLAMMABLE VEGETATION TO
INCLUDE NATIVES AND ORNAMENTALS**

**NOTICE IS HEREBY GIVEN THAT ON FEBRUARY
11, 2003, THE CITY COUNCIL OF THE CITY
OF PALOS VERDES ESTATES**

Passed or will pass a resolution declaring that hazardous brush, dry grass, weeds, combustible growth or flammable vegetation to include native and ornamental vegetation where growing upon or in front of said improved property as specifically described by parcel number in the resolution, to be a potential fire hazard or nuisance which, upon inspection by the County of Los Angeles Fire Department is verified to be an existing hazard or nuisance and violation of the County Fire Code pertaining to clearance of brush and vegetative growth, must be removed and the nuisance abated by the County authorities and the cost of removal assessed upon the land. In addition, the Board of Supervisors authorized and directed the County of Los Angeles Fire Department and the Agricultural Commissioner to recover their costs related to the enforcement of the fire code. All property owners having objection to the removal of brush, dry grass, weeds, combustible growth or flammable vegetation including natives and ornamentals are hereby notified that they may attend a brush clearance reference meeting (1) in the Antelope Valley at LOS ANGELES COUNTY ADMINISTRATIVE BLDG. 335 A EAST AVE., K-6, LANCASTER, CA 93535, ON WEDNESDAY, FEBRUARY 19, 2003 AT 9:30 A.M. OR (2) A MEETING OF THE

**CITY COUNCIL OF SAID CITY TO BE HELD AT
340 PALOS VERDES DR. WEST, PALOS VERDES
ESTATES, CA 90274, IN THE COUNCIL
CHAMBERS ON FEBRUARY 25, 2003,
AT 7:30 P.M.**

when their objections will be heard and given due consideration. If the property owner does not want to present objections to the proposed removal of hazardous brush, dry grass, weeds, combustible growth or flammable vegetation, or the recovery of enforcement and abatement costs, he/she need not appear at the above mentioned meeting(s).

PROPERTY DESCRIPTION

SEQNM 233

Dear Improved Property Owner:

This is not a citation or summons. No action is required at this time, however this is the first brush clearance notice and a reminder that the County of Los Angeles Fire Department will be conducting annual brush clearance inspections within the next few months.

The County Fire Code states that parcel owners are responsible throughout the year for the maintenance of all brush, flammable vegetation (native and/or ornamental), and other combustible materials situated on their property.

General clearing requirements are listed on the reverse side of this notice. Please review these clearing requirements and take appropriate action prior to the annual inspection date for your area. Abatement of potential or existing hazards prior to the inspection saves the Fire Department and yourself valuable money and time and insures a safer community.

Inspections are scheduled to begin April 1 in the Antelope Valley, June 1 in the Coastal Area, and May 1 in all other areas. If hazardous fire conditions exist on your property at the time of inspection, you will be issued an Official Inspection Report which will indicate existing violations and provide specific clearing instructions and a compliance deadline.

Failure to comply with the Official Inspection Report issued at the time of the inspection will result in the imposition of a \$200 administrative penalty and an additional \$231 special assessment on your annual tax bill as item CO FIRE ABMT ENF to recover the County of Los Angeles Fire Department costs related to the enforcement of the Fire Code. Additionally, if your parcel is inspected or cleared by the Agricultural Commissioner, an inspection fee of \$29.73 or the clearing costs will be placed on your annual tax bill as item LA CO HAZ ABMT.

In most cases, it is more cost effective to do the work yourself or to hire a vendor to do the work. A vendor list is available at your local fire station.

For additional information regarding specific clearing requirements, contact your local fire station or the Brush Clearance Unit at (626) 969-2375.

BRUSH CLEARANCE REQUIREMENTS

Thousands of homes are in serious danger of destruction by fire because of their proximity to brush-covered areas. Homes with wood shake roofs, wood siding, decks, patio covers or exposed eaves are particularly vulnerable to the spread of fire. Despite efforts by firefighters, wildland fires fanned by strong winds, can destroy homes. It is your legal responsibility to take the necessary action to clear vegetation around any given structures. A firesafe landscape creates a defensible space to help protect against approaching wildfires.

1. All flammable vegetation identified as a fire hazard by the inspection officer shall be mowed or cut to a stubble height of 3 inches, for 30 feet around any structure or 50 feet in high hazard areas (County of Los Angeles Fire Code 1117.2.2(2), 1117.2.3).
2. Create a firebreak for the next 70 feet, for a total of 100 feet, around any structure by clearing, trimming, thinning, cutting back and removing flammable vegetation. For high hazard areas, this distance can be increased to a maximum of 200 feet (County of Los Angeles Fire Code 1117.2.2(3), 1117.2.3).
3. Single specimens of trees, ornamental shrubbery, or ground covers are permissible, provided that they do not form a means of transmitting fire from native growth to the structure (County of Los Angeles Fire Code 1117.2.2(2)). It is recommended that specimens shall be spaced a minimum of 15 feet or 3 times their diameter from other specimens, structures or surrounding native brush.
4. Access roads shall be maintained with a minimum of 10 feet of brush clearance on each side. Fire access roads shall have an unobstructed vertical clearance clear to the sky. Trees overhanging fire access roads shall be maintained to provide adequate vertical clearance (County of Los Angeles Fire Code 902.2.2.1).
5. Provide a minimum of 3 feet of brush clearance around all fire hydrants (County of Los Angeles Fire Code 1001.7.2).
6. It is strongly recommended that all trees and shrubs shall be maintained free of dead wood and litter. Trees and shrubs may be required to be trimmed up from the ground 1/3 of their height.

All plants will burn under extreme fire weather conditions. Fire resistant plants burn at a relatively low intensity, at slow rates of spread and with short flame lengths. To best protect your home from fire, it is recommended that fire resistant plants be used when landscaping. A list of these plants can be obtained through the County of Los Angeles Fire Department, Brush Clearance Unit, telephone number (626) 969-2375.

BRUSH CLEARANCE MAINTENANCE IS A YEAR-ROUND RESPONSIBILITY

MINIMUM DISTANCES REQUIRED

EXTRA HAZARDOUS AREAS MAY REQUIRE 200 FEET OF CLEARANCE

NOTE: Small lots may make these clearance distances impossible. You are only responsible to clear up to your property lines. Clearance of property adjacent to your lot is the responsibility of the adjacent property owner.

IF YOU ARE UNCLEAR AS TO THE CLEARANCE REQUESTED, PLEASE CONTACT YOUR LOCAL FIRE STATION

Maintenance for Fire and Watershed Safety

Landscape maintenance is necessary to keep man-made structures separated from surrounding vegetative fuels; to keep the amount of vegetative fuels at a safe level; to create a safety zone for residents, firefighters, and fire equipment; and to assure that water flow from the property is channeled properly. Giving correct priorities to maintenance needs and carrying out maintenance and safety inspections on a regular basis is the key to minimizing the effects of natural disasters.

For fire and watershed maintenance, the area around the home should be divided into three perimeters of defense:

1. 0 to 30 feet: year-round maintenance
2. 30 to 100 feet: seasonal maintenance
3. 100 feet or more: yearly inspections, periodic maintenance

Maintenance Adjacent to the Home

The area within 30 feet of the home is most critical for fire and watershed safety. Maintenance of nonflammable landscaping such as lawns, border plantings, flower gardens and vegetable beds, and structures such as pools, concrete decks, and recreation areas helps to reduce fire hazard close to the home. This area is generally level and all water from it should drain toward the street. Rain gutters, pipes, and drainage devices should be cleared on a regular basis. Additionally, all leaves should be removed from the roof before the fire season begins.

Foundation shrubs and trees are a necessary part of the landscaping. However, these plants often grow into an "urban forest" fuel problem, so that landscape plants rather than surrounding native plants become the primary cause of fire loss. Year-round maintenance should consist of pruning and regular watering of individual plants. Together, these measures decrease plant volume, increase plant moisture content, and reduce or eliminate dead fuels. (Caution: unnecessary watering of drought-tolerant landscape plants may cause root rot of a native plant nearby.)

This home, designed to be fire-safe, also has a 30-foot safety zone.

Native plants can be thinned out to form an effective green belt zone that is easily maintained. Concrete bench drains should be cleaned as required.

Trees must receive the same regular maintenance as foundation shrubs. Oak trees, such as coast live oak, usually contain a high amount of dead twigs and branchlets. The crowns of such oaks are exposed to higher wind speeds than exist at ground level. These conditions can produce large flames that spread fire to the roofs of nearby structures. Eucalyptus trees are also notorious for their tendency to spread fire.

30- to 100-foot Greenbelt Area

Seasonal fire maintenance in the 30- to 100-foot greenbelt zone around the home should consist of removing dead woody plants, occasional pruning of trees and shrubs, and eradication of weedy species. To maintain healthy plants and strong root systems, pruning of most native plants should be done during the summer. Ground cover may also need to be thinned periodically. In thinning and pruning, care must be taken not to expose the soil surface more than

Ground squirrels contributed to this landslide. Numbers of entrances to their burrows are shown by the arrows.

can be safely covered by surrounding plants before the rainy season. Well-pruned, healthy shrubs require several years to build up an excess of flammable live and dead fuel. Therefore, a complete maintenance job can last a long time.

Watershed problems in this greenbelt zone are often critical. Yearly, before the winter rainy season, all drainage devices must be inspected to assure that they are functional and not clogged with debris. After major storms, all rain gutters, pipes, concrete bench and down drains, and other such devices must be re-inspected. Bench drains are easily blocked by minor soil slips. This forces uncontrolled water flow over the slope and results in supersaturated soils, erosion and mud flow.

Greenbelt Extension Past 100 Feet

The intensity of fire maintenance beyond 100 feet from the home is dictated by topography and design of the structure. Minimum maintenance for a home designed with fire safety in mind should consist of reducing the amount and continuity of the vegetation as well as thinning out the most flammable species. Selective maintenance can be done in areas where topography is favorable and geology is stable (gentle slopes, rock outcroppings, etc.) as needed without causing any accelerated soil erosion. Such "feathering out" of older vegetation on portions of a watershed while favoring younger plants reduces the possibility, intensity and effect of major wildfires. Rodents such as gophers and ground squirrels can be a major cause for soil slippage because they weaken root systems and build underground tunnels where water can concentrate.

Summary

- Maintenance of landscaping and structural additions around the home is essential to fire safety and watershed protection.
- Maintenance needs are most critical within 30 feet of the home, but periodic fuel reduction and maintenance of drainage devices are required at greater distances from the home.
